

STUDENTS APPLYING FOR FUNDING VIA UK STUDENT FINANCE (STUDENT FINANCE ENGLAND/STUDENT LOANS COMPANY ETC)

If you enrolled on a full time Undergraduate degree in 2012/13 or after you will be aware that the tuition fees have been increased substantially from the rate at which they were previously charged. Students continuing on courses which commenced prior to this increase will not usually be charged this new fee rate. However, in all cases it is important that where you are dependent on receiving a tuition fee loan you make a timely application in order that your funding position is fully determined prior to the start of the academic year.

Full time and part time students can find useful information relating to eligibility, factors which may impact upon the extent of funding you can receive, and guidance on the application process on the UK Government's own website [here](#).

Our university also has a dedicated team of **Student Money Advisors** who will be happy to assist with any questions or concerns you may have on this subject.

If your application for full tuition fee funding is successful, you need not concern yourself with the payment of your tuition fees to our university as these will be paid directly to us on your behalf. You will only be required to start paying back the loan after you have graduated and once your income reaches a certain threshold. Details on the applicable terms can be found through the UK Government's website above, but also through our own webpage on the subject, which can be found [here](#).

If, however you are unsuccessful in your application for funding you will need to arrange to make payment of your fees directly to our university within the terms of the payment schemes described on these pages. If you feel that the rejection of your application for funding is incorrect, then our **Student Money Advice** team are ready to assist.
