Please complete all sections of the form fully and where not applicable please state N/A. Where applicable please also complete the sections for any collaborative provision sampled.

If you are an external examiner for any of the University's Pearson Licensed Centre Programmes (HND/HNC level) provision, please also complete the section on page 9 sections l, m and n entitled "for External Examiners Associated with Pearson Licensed Centre Programmes."

(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).

Excellent

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.

The students are comparable in terms of number of 1st, 2:1 and 2:2 degrees awarded. There is no evidence of grade inflation in my opinion.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.

students overall are stronger in oral presentations and written assessments than exams.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

The modules within the programme that i am responsible for are mainly assessed by coursework (which is the appropriate mode). exams are applied in nuature and the questions well constructed with clear guidance answers, providing confidence in the transparency of the assessment process.

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment

The student performance indicates the resourcing is appropriate- however I am aware the programme team work very hard and should be commended for their commitment to the students

(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).

Very easy to access

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)

Comments for each module have been provided to the programme team

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

I think the processes adopted by the University to manage the Covid pandemic was appropriate

(k) Collaborative Provision: please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).
