Main report

In this section you are asked to describe more fully how the University has or has not maintained threshold academic standards and the quality of the student experience in relation to the course(s) for which you are the external examiner, using as a reference the framework for higher education qualifications and applicable Subject Benchmark Statements / Qualification Characteristic Statements.

Please complete all sections of the form fully and where not applicable please state N/A. Where applicable please also complete the sections for any collaborative provision sampled.

If you are an external examiner for any of the University's Pearson Licensed Centre Programmes (HND/HNC level) provision, please also complete the section on page 9 sections l, m and n entitled "for External Examiners Associated with Pearson Licensed Centre Programmes."

Professional Body Requirements

	Yes	No	N/A*
"In my view, the professional body requirements for this course have been met. *Not applicable if the course is not a professional body course please indicate here.	X		

If your answer is 'no', please provide a brief statement (bullet points) of the respect(s) in which they fall short.

(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).

Organised well, is well structured and alot of work clearly goes into the preparation of these boards.

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.

Performance is consistent with the level being examined and comparable to other institutions

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.

2 main weaknesses, though not isolated to this programme or institution. Students struggle with the concept of reflection creating only superficial accounts. Student seem to struggle with using more primary sources of information in their work.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

The standards of the structure, organisation, design and marking of all assessments are thorough, well prepared and result in clear auditable trails.

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment

The curriculum remains relevant and up to date. Students have been supported during the Covid pandemic.

(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).

Examiners are given specific spaces to examine and review work which makes accessing and reviewing much easier.

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)

Module content remains up to date and consistent with current H&S issues. Very practical nature ensuring transferability of knowledge and skills to the workplace. Students inevitably seem to do well on some modules and less on others, research methods is a challenge across all programmes and institutions for example.

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

Professional practice is certainly a strong and consistent theme throughout the programme which is to be commended. It is my understanding that a number of staff members are undergoing higher degrees which will support already high standards of scholarship and research.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

No comments.

(k) Collaborative Provision: please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).
