Main report

In this section you are asked to describe more fully how the University has or has not maintained threshold academic standards and the quality of the student experience in relation to the course(s) for which you are the external examiner, using as a reference the framework for higher education qualifications and applicable Subject Benchmark Statements / Qualification Characteristic Statements.

Please complete all sections of the form fully and where not applicable please state N/A.

Where applicable please also complete the sections for any collaborative provision sampled.

If you are an external examiner for any of the University's Pearson Licensed Centre Programmes (HND/HNC level) provision, please also complete the section on page 9 sections l, m and n entitled "for External Examiners Associated with Pearson Licensed Centre Programmes."

Professional Body Requirements			
"In my view, the professional body requirements for this course have been met.	Yes	No	N/A *
*Not applicable if the course is not a professional body course please indicate here.			x
<i>If your answer is 'no', please provide a brief statement (bullet points) of the respect(s) in which they fall short.</i>			

(a) The operation and conduct of the Board of Examiners (and or Examination Committee meeting you may also have attended).

The operation of the board proceeded very effectively, timely and smoothly, I was made to feel welcome as an External attending for the first occasion.

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)

N/A

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.

The student outcomes in relation to the University's published grade criteria' is generally comparable with those on similar programmes.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.

Strong assignments make the link between theory and practice in relation to the explicit subject knowledge being developed.

In the assignments that lack academic rigor one shortfall I noticed was a lack of attention paid to the individual subject pedagogy, e.g. Art in the case of Developing Subject Competence (18048) which links with LO- Identify, understand and critically analyse curriculum and pedagogy in a specified area. the narrative is anecdotal and unsupported, which is commensurate with this level of work in other HE establishments.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

The standards in the structure and organisation of assessments were consistent throughout, with some modules

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment.

I found the Handbooks, resources and curriculum to be relevant and appropriate to enable student success e.g. I particularly valued the LO's in relation to Professional Values in Practice (18052) which are appropriately focussed in relation to the needs of this assignment, student practice and outcomes.

(g) Comments on the use of X-stream (Virtual Learning Environment) within the course (if applicable).

N/A

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your Faculty to provide detailed comments on the modules that you examine.)

The team of markers and moderators were consistent across modules and the course of study; focussed comments enabled the student to know exactly what to do in developing their academic writing. Consistently included were 3 general feedback comments and 3 targets for development.

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

All staff taking part in assessment are strongly engaged with the student cohorts in a teaching and learning capacity and with professional practice, which means that their knowledge of the course requirements and standards is exemplary.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

(k) **Collaborative Provision:** please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).

<p>Recommended sample sizes at Leeds Beckett University are as follows:</p> <p>a) Samples should be determined by a square root of cohort size, no smaller than 6, no larger than 15. However it should be borne in mind that not all work is assessed in a way that makes a square root sample possible and allowance should be made. For example in subjects such as the performing arts where there may be a requirement for an external to come and view a performance instead, or to visit the exhibition of art work.</p> <p>b) Samples to include all classification categories, and it is helpful to concentrate around the boundaries to include some fails.</p> <p>c) Samples to consist of internally moderated work, clearly evidencing the moderation process.</p>
