Late Entry

Students who, due to late entry, enter into a contract to occupy accommodation for a period less than the contract dates shown above will be required to meet the same instalment payment dates; the first instalment value will be adjusted to reflect any reduction in charge.

Students who qualify to pay their rent by Direct Debit and whose contract begins within 14 days prior to any of the payment dates shown above must meet their first payable instalment by a method other than Direct Debit as there will be insufficient time to process a Direct Debit Instruction within the 14 day time frame.

Students whose contract begins after any of the payment dates shown above will be required to make their initial payment within 14 days of their contract start date.
