1. Individual instructors can still delete assessment records active in systems – **PLEASE DO NOT DO THIS** without first contacting Digital Learning for advice, unless for example you are clearing a student's attempt in order for them to submit a new draft.

If the tool you want to use or already use for assessment is not listed above, please contact Digital Learning to discuss. This includes submissions in which a URL hyperlink to another tool is submitted e.g. a YouTube link submitted to a Blackboard Assignment.
