They are responsible for the provision of accurate and timely information to Board. They are responsible for effective course monitoring and annual review, for the continuing quality enhancement of the programme(s) and for the support of any internal or external review of the provision. The Course Director may be supported by additional Course Directors/Tutors.

Role of the Module Leader

Module Leaders can be expected to:

1. Ensure all module assessment is carried out appropriately and that effective internal moderation has taken place.
2. Ensure all internally moderated marks are provided to the Course Director or delegated person in time for the marks to be input into the corporate system.
3. Produce these marks in an acceptable format, i.e. clearly and in percentages, indicating weightings, where appropriate.
4. Check the accuracy of their module marks on the spreadsheet.
5. Bring to the attention of the Board any matters affecting assessment for that module.
6. Bring to the attention of the Board any errors in the spreadsheet at any time during the Board.

Module Boards/ Progression & Award Boards

Role of the External Examiner(s)

The primary role is to confirm that the awards made to students are comparable in standard with awards in UK higher education more generally by considering the course with reference to the following:

1. Relevant national subject benchmark statements
2. The QAA Framework for Higher Education Qualifications of UK Degree-Awarding Bodies
3. Course documentation
4. Any appropriate professional/statutory body requirements
5. Comparability of performance relative to students across the sector with which they are familiar

A second important role is to ensure fairness and equity to students. The third role is to assist the University and the course team to maintain and enhance the quality of its courses.

No recommendation for the conferment of an award above the level of Certificate of Higher Education can be made without the written consent of the external. In practice, as this relates to Boards, this means they are required to:

Prior to the meeting

- Be provided with the proposed assessment for the module(s) (for comment and approval)
- Be provided with samples of marked student work (for moderation purposes after the internal moderation process has been completed)

During the meeting

- Attend the meetings of the relevant Board – the Chief External Examiner should attend Progression and Award Boards and all external examiners should attend Module Boards with the modules under consideration
- Confirm their agreement to the decisions made by the Board by signing the mark sheets
- Provide an impartial view of student results

After the meeting

- Submit a written report to the University focused on the standards of the award, how equity was applied to all students and making any suggestions for enhancements to the course on our University template
- (Possibly, where required) Be consulted following an appeal hearing where the decision of the Board is to be changed and an award made to the student or a higher classification is to be awarded
