INFORMATION FOR EMPLOYERS

INTRODUCTION

After a successful pilot in 2025, Leeds Beckett University and FinTech North are launching a bigger and better Graduate Development Programme in March 2026. This FinTech initiative equips graduates with practical skills and real industry insight — while giving employers direct access to fresh talent and innovative ideas.

“Group tasks were fantastic for collaboration and learning.”

WHY ARE WE DOING THIS?

The North of England is a growing FinTech hub, and sustained growth depends on a strong pipeline of skills. By partnering with employers, we can develop future-ready talent, strengthen the regional economy, and create meaningful opportunities for graduates and businesses alike.

This programme is designed to give graduates real exposure to FinTech workplaces and a clear understanding of the sector’s breadth and opportunities. For employers, it’s a chance to showcase your business and connect with future talent — and if you’re looking to hire, even better. The programme enables you to meet graduates first-hand before they enter the job market.

BECOME A FINTECH PARTNER

Our next bootcamp runs through March to April 2026. We’d love to have you contribute in any of the following flexible ways:

- Host site visits: showcase your workplace and FinTech careers.
- Provide live projects: set short, real-world challenges for graduates.
- Deliver practical sessions: share expertise, network.
- Mentoring: offer guidance to graduates preparing for industry roles.
- Recruitment opportunities: engage for internships or entry-level roles.
- Virtual engagement: join online if in-person isn’t possible.

BENEFITS

ACCESS TO LBU TALENT

Meet graduates first-hand and build relationships before you hire with zero recruitment costs.

INNOVATION BOOST

Gain fresh perspectives on real business challenges through live projects.

BRAND VISIBILITY

Showcase your organisation via Leeds Beckett University and FinTech North channels.

REGIONAL IMPACT

Play a key role in strengthening the FinTech skills pipeline in the North of England.

“Great support and discovery of the FinTech landscape.”

Join us in 2026, as we take things up a level with more employers onboard, live projects, and opportunities to connect with top talent.
