Timetables are made available to students during induction week via:

- The Student Portal (MyBeckett)
- The Leeds Beckett app

Any difficulties relating to timetabled sessions may be discussed with your Course Administrator.

Policies, Standards and Regulations www.leedsbeckett.ac.uk/academicregulations

The course follows the Academic Regulations except where noted below.

Achievement of the award

The PG Certificate is awarded for the attainment of a minimum of 60 level 7 credits points. The Academic Regulations do not allow for compensation or the condoning of marks by the Progression and Award Board. All components of assessment must be passed to pass a module and all modules must be passed to achieve the award.

Fitness to Practise

The course is authorised to use the University Fitness to Practise Policy and Procedure. Details can be found [here](#). Students are expected to act in a professional manner at all times in line with the Policy.

Attendance requirements

As well as following the University's attendance policy, the course has minimum attendance requirements. Details of how absences are managed are detailed in the Course Handbook. Attendance is monitored and additional student support is used if patterns of non-attendance are noted, and employers advised. Students are required to give their agreement that their attendance monitoring can be shared with their employers/sponsors. The module handbooks provide information on the actions required to assimilate learning for any missed sessions. Where students fail to complete the minimum hours, they meet with the Course Leader to discuss their non-attendance and work in partnership to devise an appropriate action plan. Where there are significant issues of non-attendance, students may be required to repeat the module. This would only be implemented after the Course Leader, the student and their agency representative have explored all other options and have agreed on this course of action.

- Perspectives on Mental Distress - 80% minimum attendance
- Mental Health Law and Policy - 80% minimum attendance
- Approved Mental Health Professional Practice - 80% minimum attendance

Placement attendance

Students need to complete 60 days of placement.

Academic calendar

This course follows a non-standard calendar to accommodate placement hours.

Work Placement Information

Summary

Students undertake a placement of 60 days, with this being split into two six week blocks. Within the placement, the student will normally be placed in a different setting from the one that they currently work in, although it is acknowledged that many will likely sit in the local authority's Approved Mental Health Professionals (AMHP) hub. The placement has to have a minimum of two AMHPs, with one acting as the student's practice assessor and the other providing support should the designated AMHP not be available.

Length

60 days over two six-week blocks normally.

Location

See above details in the summary.

Professional Accreditation or Recognition Associated with the Course

Professional Body

Social Work England

Accreditation/ Recognition Summary:

This course is approved by Social Work England who is responsible for publishing the list of Approved Mental Health Professional programmes in England. On completion of the course, an individual will need to be approved by a Local Social Services Authority (LSSA) before they can act as an AMHP. As the link between completing an AMHP course and performing the functions of an AMHP is not absolute, there will be no annotation on the Register.

Course Overview

Aims

The course, which provides Approved Mental Health Professional training, has been designed to enhance the professional development of registered social workers, mental health and learning disabilities nurses, occupational therapists and practitioner psychologists. The aim of the course is to provide training to meet the needs of mental health professionals who wish to seek approval as Approved Mental Health Professionals (AMHPs) under the terms of the Mental Health Act 1983 (amended by the Mental Health Act 2007). The course is designed to meet the requirements of the Mental Health (Approval of Persons to be Approved

Mental Health Professionals) (England) Regulations, 2008 and those achieving the award will be eligible for consideration by the relevant local authority for approval to act as an AMHP.

The course enables students to reflect critically on the needs of service users and their carers; to maximise outcomes for their benefit; to review the nature of multi-professional and multi-agency working; to critically assess the nature and direction of mental health policy; and to develop skills in risk assessment and the protection of service users. Partnership with local and regional employers underpins the development of the course.

Course Learning Outcomes

At the end of the course, students will be able to:

- 1 Demonstrate a critical awareness and systematic evaluation of the legislative and policy context for the delivery of mental health services.
- 2 Ensure high standards of value-based practice within a clear ethical approach underpinned by the 'Essential Shared Capabilities'.
- 3 Critically evaluate current research and independently examine relevant knowledge including models of mental health and illness.
- 4 Demonstrate the competencies required of an AMHP as set out in Schedule 2 to the Mental Health (Approved Mental Health Professionals) (Approval) (England) Regulations, 2008.
- 5 Demonstrate a critical and reflective approach to their own practice in order to critically evaluate the delivery of mental health services and take responsibility for their own continuing professional development.

Teaching and Learning Activities

Summary

The course promotes an inclusive environment that involves behaving in a non-discriminatory way, being respectful of others and valuing diversity. The course encourages students to engage in respectful discussion, debate, collaborative work and research, in order to recognise and learn from different viewpoints and critically examine diverse theoretical perspectives. Students are encouraged to identify and evaluate their learning styles and preferences and to develop action plans and Learning Contracts to support self-directed learning. The course employs a variety of teaching styles and assessment methods to promote and enable inclusive learning.

Teaching takes place in multi-purpose teaching spaces in the University, with additional specialist teaching and learning facilities for inter-personal skills development and experiential learning within the School. Teaching approaches include staff and/or practitioner led lectures (including podcasts) and workshops for skills development.

To develop self-directed learning, students are encouraged to participate in student-led seminars, as well as group work activities and action learning sets to promote shared learning, peer feedback and team working

skills. Analytical skills and critical thinking are developed through reflective learning blogs and critical incident analyses as well as problem based learning activities. Problem-based learning, case study analysis and experiential learning are used to integrate theory and practice and to develop critical application of theory.

Your Modules

This information is correct for students progressing through the course within standard timescales. Details of module delivery will be provided in your timetable. All modules are core.

Semester 2 start date
Approved Mental Health Professional Practice (20 credits)
Mental Health Law and Policy (20 credits)
Perspectives on Mental Distress (20 credits)

Assessment Balance and Scheduled Learning and Teaching Activities

The assessment balance and overall workload associated with this course are calculated from core modules. A standard module equates to 200 notional learning hours, comprising teaching, learning and assessment, any embedded placement activities and independent study. In view of the placement hours requirements, the notional hours exceed the usual 200 hours for 20 credits for the Approved Mental Health Professional Practice modules. Modules may have more than one component of assessment.

Assessment

The course is assessed by coursework, examinations and a portfolio. Students are assessed in practice.

Workload

Overall workload	Hours
Teaching and Learning	198
Independent Study and Assessment	286
Placement	300
Total	784

Learning Support

If you have a question or a problem relating to your course, your Course Administrator is there to help you. Course Administrators work closely with academic staff and can make referrals to teaching staff or to specialist professional services as appropriate. They can give you a confirmation of attendance letter, and a transcript. You may also like to contact your Course Representative or the Students' Union Advice team for additional support with course-related questions.

If you have any questions about life at our University in general, call into or contact the Student Advice Hub on either campus. This team, consisting of recent graduates and permanent staff, are available to support you throughout your time here. They will make sure you have access to and are aware of the support,

specialist services, and opportunities our University provides. There is a Student Advice Hub on the ground floor of the Rose Bowl at City Campus and one in Campus Central at Headingley. You can also find the team in the Gateway in the Leslie Silver Building at City Campus. Email enquiries may be directed to studentadvicehub@leedsbeckett.ac.uk.

Within MyBeckett there are two tabs (Support and Opportunities) where you can find online information and resources for yourselves. The Support tab gives you access to details of services available to give you academic and personal support. These include Library Services, the Students' Union, Money advice, Disability advice and support, Wellbeing, International Student Services and Accommodation. There is also an A-Z of Support Services, and access to online appointments/registration.

The Opportunities tab is the place to explore the options you have for jobs, work placements, volunteering, and a wide range of other opportunities. For example, you can find out here how to get help with your CV, prepare for an interview, get a part-time job or voluntary role, take part in an international project, or join societies closer to home.
