BECKETT
UNIVERSITY

Course

Specification

BA (Hons) Human

Geography

Course Code: HGEOG

2022/23

BA (Hons) Human Geography (HGEOG)

Applicant Facing Course Specification for 2022/23 Undergraduate Entrants

Confirmed at 01/2022

General Information

Award	Bachelor of Arts with Honours Human Geography
Contained Awards	Bachelor of Arts Human Geography (Level 6) Diploma of Higher Education Human Geography (Level 5) Certificate of Higher Education Human Geography (Level 4)
Awarding Body	Leeds Beckett University
Level of Qualification and Credits	Level 6 of the Framework for Higher Education Qualifications, with 120 credit points at each of Levels 4, 5 and 6 of the UK Credit Framework for Higher Education (360 credits in total).
Course Lengths and Standard Timescales	Start dates will be notified to students via their offer letter. The length and mode of delivery of the course is confirmed below: <ul style="list-style-type: none">• 3 years (full time, campus based)
Part Time Study	PT delivery is usually at half the intensity of the FT equivalent course, although there may be flexibility to increase your pace of study to shorten the overall course duration. Some modules may be delivered in a different sequence to that defined within this information set but the modules offered within each level are consistent. Please note that the work placement option is not generally available to PT students.
Location(s) of Delivery	City Campus, Leeds Students are responsible for obtaining their own placement, with assistance from the University. The locations will vary, dependant on the opportunity.
Entry Requirements	Admissions criteria are confirmed in your offer letter. Details of how the University recognises prior learning and supports credit transfer are located here: https://www.leedsbeckett.ac.uk/student-information/course-information/recognition-of-prior-learning/

Admissions enquiries may be directed to:
AdmissionsEnquiries@leedsbeckett.ac.uk.

Course Fees

Course fees and any additional course costs are confirmed in your offer letter. Fees enquiries may be directed to
Fees@leedsbeckett.ac.uk.

Timetable Information

Timetables for Semester 1 will be made available to students during induction week via:

- i) The Student Portal (MyBeckett)
- ii) The Leeds Beckett app

Any difficulties relating to timetabled sessions may be discussed with your Course Administrator.

Policies, Standards and Regulations (www.leedsbeckett.ac.uk/academicregulations)

There are no additional or non-standard regulations which relate to your course.

Key Contacts

Your Course Director

Neil Evans

Your Academic Advisor

Each Student will be allocated an Academic Advisor once they commence their studies at the University. The Academic Advisor will be a member of the Planning, Housing & Human Geography Academic Staff.

Your Course Administrator

Joe Marsh - J.M.Marsh@leedsbeckett.ac.uk

Sandwich or Other 'In Year' Work Placement Information

Summary

Obtaining your University degree is no longer just about turning up to lectures and passing assignments. You will have an opportunity to develop a set of skills that sets you apart from a crowd in a very challenging and crowded labour market. Your work placement is an important part of your degree course. It forms an integral component of your year 2 'Placement' module and so is assessed and credit bearing. We have an excellent network of employers who we feel would be able to offer relevant experience to help you develop employability and personal skills whilst developing understanding of key academic content of your course. This related to mapping, ecology, environment, planning, communities, issues of social inclusion and the

dynamics of difference and diversity. We set you up with the work placement employer, but you are free to source your own with our assistance.

The aim of the placement module is to not only develop professional or employability skills through a placement programme but a series of supporting taught sessions/workshops relating to CV construction, interview skills, personal and professional reflection, skills analysis and LinkedIn account set up. As everyone is different in the way they possess, perform and reflect on skills in the workplace, the work placements will enable you to recognise the skills and competencies

Length

The work placements take place in semester two of year two. They last for about 70 hours (notionally two weeks full time equivalent) but can be negotiated with the employer to be a longer duration. This is normally about one full day per week but can change depending on the nature of the placement and your ongoing weekly lecture timetable which runs alongside.

Location

The location of the work placement varies. Most are in or around the Leeds City-region, but some are sourced from other locations in the North of England. For some students this is helpful as they are close to home.

Professional Accreditation or Recognition Associated with the Course

Professional Body

None at present, although accreditation is being sought from The Royal Geographical Society (RGS).

Accreditation/Recognition Summary

The Royal Geographical Society (RGS) aims to:

- Share and promote the benefits of geography for the world beyond higher education
- Recognise good practice in geography learning and teaching
- Enhance competitiveness for students in a crowded graduate jobs market
- Provide a means to support the continuous quality improvement of UK geography degree programmes
- Support the international standing of the UK higher education geography as a rigorous and applied subject

(Accreditation with RGS subject to approval)

Course Overview

Aims

The aims of the programme are to:

- Provide a broad, contemporary and intellectually challenging geographical curriculum that enables you to critique the relationship between people and their environment.
- Combine the exploration of theory, practical fieldwork and project work to develop a critical understanding about the significance of global local processes in the production of particular geographies.
- Promote an awareness of the socially constructed ways of representing and interpreting the world.
- Foster appropriate analytical and methodological skills for the interpretation and analysis of geographical information.
- Develop a range of subject-specific and transferable skills appropriate to graduate employment and/or postgraduate study.
- Provide a supportive and engaging learning environment that acknowledges and responds to the diversity of student backgrounds, experiences and learning styles.
- Foster analytical and methodological skills to become individual, autonomous and reflective learners.

Our BA (Hons) Human Geography course is a contemporary and dynamic course which explores what is happening in the world around us. The broad remit of the discipline means that subject matters of increasing public concern such as global poverty, social justice and cultural diversity form an integral part of the curriculum. The course challenges your understanding and view of the world and enables you to interpret key events, movements and trends. Within the course there is an emphasis on the central themes of globalisation, sustainable development and urbanism, spatial policy outcomes and intervention, heritage, culture and identity. These themes provide an important conceptual framework to equip you to understanding the processes and factors which are affecting change in the world around us and to think about applied real world solutions. The course team have developed expertise in these areas as a result of engagement in contract consultancy work, community projects and academic research. The applied nature of these themes and activities provides the course with a strong and distinctive identity which we hope you will take into your chosen related career.

Course Learning Outcomes

At the end of the course, students will be able to:

1	Critically understand the nature and impact of human relations on the built and natural environment.
2	Critique the significance of global local processes in the production of particular geographies and environments.
3	Develop an understanding of the socially constructed ways of representing and interpreting the world across time and space.
4	Apply appropriate analytical skills and methodological rigour in the interpretation of geographical information, graphical presentation of information, GIS and the analysis of primary sources.
5	Develop a range of employability skills and reflective understanding of creative and technical skills required for employment in a related discipline.

Teaching and Learning Activities

Summary

At the centre of our learning and teaching strategy is a belief in a participatory approach. This means you are at the centre of learning by way of discussion, participating in class and learning together. This approach is a result of the exploratory nature of geography as a discipline and the intrinsic requirement that you are able to learn from experience in the classroom and our urban and rural environments. As a teaching team we also think it vital we continually innovate in our teaching material, subject matter and delivery style. As a significant proportion of the teaching team have completed teaching qualifications there is widespread awareness of the variety of ways in which students learn and a general perception of the role of the lecturer as being one of a guide and facilitator. The dominant model of teaching is therefore best described as embodying the partnership approach whereby both lecturer and students are able to gain mutual benefit. This has resulted in a general movement away from teaching which is didactic or exclusively concerned with knowledge transfer. Instead your course team strives to encourage student participation at all levels and stages of learning.

Fieldtrips represent an important part of the teaching and learning approach. The term is used in the broadest sense and includes external visits where you will gain an understanding of real-world issues and examples in geography, using locations for conducting fieldwork to develop competence in practical research skills, etc. Fieldtrips are undertaken at all levels of the programme. Fieldtrips form an integral part of the degree programme and as such the cost of all-day trips are covered by the university. In the case of international field trips, the university will subsidise these trips and students will only be required to finance their travel to these destinations (plus a nominal non-refundable deposit). Alternative UK based fieldwork assignment is set if you do not attend. It is important that you are able to engage with the real world and as such fieldwork and experiential learning are regarded as essential components of the degree. There are a

wide range of objectives and learning outcomes associated with fieldtrips as they are embedded within the assessment for numerous modules. However, on a general note they provide you:

- an opportunity for students to apply theoretical concepts to a specific place
- to evaluate the implementation of spatial, cultural, economic and environmental policies
- to develop an awareness of cultural differences, tolerance and developing a sense of place
- to identify problems, consider solutions, gather data and collect information
- to learn generic and transferable skills such as team working and observation

Your Modules

This information is correct for students progressing through the programme within standard timescales. Option modules listed are indicative of a typical year. There may be some variance in the availability of option modules. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes. Details of module delivery will be provided in your timetable.

Level 4			
Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Sustainable Urbanism and European Field Trip (20 credits)	Y	City and Society (20 credits)	Y
Geography in the Contemporary World (15 credits)	Y	Geographies of Diversity (20 credits)	Y
Contested Geographies (20 credits)	Y	Techniques in Geographical Research (15 credits)	Y
Academic Skills for Geographers and Planners (10 credits)	Y	Academic Skills for Geographers and Planners (10 credits)	Y

Level 5			
Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Placement and Employability Skills (10 credits)	Y	Placement and Employability Skills (10 credits)	Y
Research Methods (20 credits)	Y	Research Methods (20 credits)	Y
Social Justice (20 credits)	Y	Natural Hazard Management and Climate Adaption (20 credits)	Y
Development of Geographical Thought (20 credits)	Y	Alternative Economic Geographies (20 credits)	Y

Level 5			
International Field Trip (10 credits)	Y		

Level 6			
Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Dissertation (double module) (40 credits)			Y

Level 6 (delivery years as per Level 6 core modules above)
The following option modules are indicative of a typical year. There may be some variance in the availability of option modules.

Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Chose TWO from: Geographical Imaginations Strategies for European Cities Geographies of Consumption Cities and Spatial Justice *modules are 20 credits each	N	Choose TWO from: Global Challenges Housing Policy Heritage and Conservation Women in the Built Environment Geographies of Development *modules are 20 credits each	N

The option modules listed are indicative of a typical year. There may be some variance in the availability of option modules.

Assessment Balance and Scheduled Learning and Teaching Activities by Level

The assessment balance and overall workload associated with this course are calculated from core modules and typical option module choices undertaken by students on the course. They have been reviewed and confirmed as representative by the Course Director but applicants should note that the specific option choices students make may influence both assessment and workload balance.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, any embedded placement activities and independent study. Modules may have more than one component of assessment.

Assessment

Level 4 is assessed by coursework.

Level 5 is assessed by coursework predominately, with one examination.

Level 6 is assessed by coursework predominately, with some examinations.

Workload

Overall Workload	Level 4	Level 5	Level 6
Teaching, Learning and Assessment	281 hours	274 hours	209 hours
Independent Study	919 hours	856 hours	991 hours
Placement		70 hours	

Learning Support

If you have a question or a problem relating to your course, your Course Administrator is there to help you. Course Administrators work closely with academic staff and can make referrals to teaching staff or to specialist professional services as appropriate. They can give you a confirmation of attendance letter, and a transcript. You may also like to contact your Course Rep or the Students' Union Advice team for additional support with course-related questions.

Student Services

If you have any questions about life at University, call into our Student Services Centre at either campus or contact Student Advice directly. This team, consisting of trained officers and advisers are available to support you throughout your time here. They will make sure you have access to and are aware of the support, specialist services, and opportunities our University provides. They also work on a wide range of projects throughout the year all designed to enhance your student experience and ensure you make the most of your time with us. Student Advice are located in the Student Services Centre in the Leslie Silver Building at City Campus and on the ground floor of the Priestley Building at Headingley Campus. The team can also be contacted via email at studentadvice@leedsbeckett.ac.uk, telephone on 0113 812 3000, or by accessing our online chat link, available on the student homepage.

Support and opportunities

Within MyBeckett you will see two tabs (Support and Opportunities) where you can find online information and resources for yourselves. The Support tab gives you access to details of services available to give you academic and personal support. These include Library Services, the Students' Union, Money advice, Disability advice and support, Wellbeing, International Student Services and Accommodation. There is also an A-Z of Support Services, and access to online appointments/registration.

The Opportunities tab is the place to explore the options you have for jobs, work placements, volunteering, and a wide range of other opportunities. For example, you can find out here how to get help with your CV, prepare for an interview, get a part-time job or voluntary role, take part in an international project, or join societies closer to home.
