Teaching and Learning Activities

Summary

Students who enrol on MA Performance can expect a variety of engaging learning experiences. Traditional lecture and seminar-based sessions provide an opportunity for students to discuss trends in performance and wider cultural practices in a critically and informed manner with staff and external speakers. Workshops and making processes are also engaged with as a way of informing and developing the individual practical needs of each learner. These occur in our own studio spaces, but also in both national and international organisations. The ethos of MA Performance is one that values Professional Practice, and as such, students should expect teaching and learning activities to occur with professional artists, curators, and pedagogues in professionally appropriate settings.

The 'making' of art is an important part of MA Performance, and this occurs in a variety of contexts. Students will be expected to make solo art, but also work as an ensemble, be directed by in house and external artists, and receive, and reflect upon, critical feedback. The understanding of one's processes is also demonstrated in a variety of contexts, in the first instance, this occurs in the making and presentation of performance, but also through portfolios, presentations, lecture demonstrations, vivas and essays. In most cases, assessment vehicles are negotiated, in the form of a learning agreement, and adapted to suit the individual academic needs of the learner, whilst still adhering to the rigour of MA Performance learning outcomes.
