Aims

The aim of the programme is to:

Engage, enable and challenge our students to become creative, entrepreneurial, and critically informed dynamic graduates who can excel in their chosen field of work or study within hospitality business management and marketing. Central to our course are the strong links between theory and practice, with carefully designed authentic assessments and student-tutor interaction at the heart of the student experience.

Course Learning Outcomes

At the end of the course, students will be able to:

1. Develop into reflective practitioners who are able to make informed decisions and respond flexibly to a dynamic globalised hospitality industry and emerging market trends.
2. Operate as thoughtful hospitality and marketing practitioners who act in an ethical and responsible way in order to achieve their own success and that of their organisation.
3. Be creative thinkers who are digitally literate and enterprising and are accomplished and confident in designing and implementing new and innovative products, services and solutions which will be of benefit to for consumers and the hospitality industry and marketing environment.
4. Think in a cognitively complex way and communicate in a manner appropriate at all levels within and outside hospitality organisations.
5. Use business, marketing and consumer theories and concepts to inform effective professional practice.
6. Initiate and implement change with sensitivity, empathy and attention to detail whilst taking into account the impact on internal and external stakeholders.

Teaching and Learning Activities

Summary

The teaching methods used throughout the course are diverse and include lectures, seminars, tutorials, workshops, practicals and fieldwork. This variety of teaching methods is designed to enhance student achievement, satisfaction and employability.

A 'safe' learning environment is provided throughout the course, but especially at Level 4. Students will be encouraged to experiment in their learning and challenge themselves whilst they have extensive support given by Module Leaders, tutors and Academic Advisers, especially in semester one.

The Professional and Academic Skills module at Level 4 and the Hospitality Marketing Research module at Level 5 enable students to explore the hospitality industry first hand. As they progress through the course, students will be encouraged increasingly to become independent learners.

Learning and teaching activities will enable students to succeed at every level and will produce capable Level 6 undergraduates who will then become successful hospitality business managers in an increasingly complex and globalised world.

Learning will be in person. Students are expected to attend timetabled face-to-face learning and teaching activities. Live lectures will be recorded.

Your Modules

This information is correct for students progressing through the programme within standard timescales. Option modules listed are indicative of a typical year. There may be some variance in the availability of option modules. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes.
