Course Overview

Aims

The BSc (Hons) Facilities Management (top up) is aimed at people who are already employed in the work place and who are either Facilities Managers that for personal or professional development want to acquire a formal academic qualification in the subject, or are from other related disciplines such as office managers, cleaning supervisors or maintenance managers and are considering transferring into a Facilities Management role.

This course is a level 6 top up delivered via distance learning which offers opportunities to people who otherwise would not be able to undertake formal face to face education for reasons of employment or personal circumstances. For example, due to the nature of the industry, facilities managers may be required

to work at other sites for periods of time, which through conventional delivery methods would make teaching impractical, therefore through distance learning students can continue their studies anywhere in the world and not be disadvantaged.

As this course starts at Level 6 an important element of the enrolment process is the recognition and accreditation of prior learning from the work-place or previous academic learning, this is to make sure that applicants have the required learning and understanding at Levels 4 and 5 to be able to progress successfully onto Level 6 of this top up.

Ultimately the course aims to successfully produce students who understand the principles and processes of facilities management and who can then apply these effectively in the workplace.

Course Learning Outcomes

At the end of the course, students will be able to:

1	Combine knowledge, theories and principles to deliver an inclusive Facilities Management environment, recognising the diversity of user needs by putting people (of all ages and abilities) at the heart of the process.
2	Adopt a critical approach to the impact that facilities and estate management has on both the environment and social structures (including health and well-being) to explore these problems and issues from a theoretical standpoint.
3	Critically evaluate the professional and ethical frameworks associated with the development, financing, investment in, and the use of, buildings and facilities and be able to propose new solutions to address any issues arising.
4	Critically evaluate, prioritise and organise information to evaluate the building asset and its data, to support the efficient performance of facilities and buildings, within the overall estate and apply this knowledge to provide solutions for the effective ownership, use and, occupation of property.

Teaching and Learning Activities

Summary

This course is delivered via web-based distance learning. The educational style is “Wraparound” and “Content with Support”. Students are directed to learning resources: MyBeckett VLE, textbooks and external websites. The tutors provide directed study guides “wrapped around” these learning resources. Students are supplied with links and references to this external material and are expected to follow up these links on their own; much as students in a traditional University course are supplied with reading lists and are expected to undertake reading on their own. At times, students may be expected to undertake research, using work-based material.

Your Modules

This information is correct for students progressing through the programme within standard timescales. Option modules listed are indicative of a typical year. There may be some variance in the availability of option modules. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes. Details of module delivery will be provided in your timetable.

Level 6 (Year 1)			
Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Financial and Commercial Management (20 credits)	Y	Work-based Learning (Level 6) (20 credits)	Y
Facilities Management - Professional Practice (20 credits)	Y	Facilities & Maintenance Management (20 credits)	Y
Level 6 (Year 2)			
Semester 1	Core (Y/N)	Semester 2	Core (Y/N)
Major Project (40 credits)	Y		

Assessment Balance and Scheduled Learning and Teaching Activities by Level

The assessment balance and overall workload associated with this course are calculated from core modules and typical option module choices undertaken by students on the course. They have been reviewed and confirmed as representative by the Course Director but applicants should note that the specific option choices students make may influence both assessment and workload balance.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, any embedded placement activities and independent study. Modules may have more than one component of assessment.

Assessment

They have been reviewed and confirmed as representative by the Course Director but applicants should note that the specific option choices students make may influence both assessment and workload balance.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, any embedded placement activities and independent study. Modules may have more than one component of assessment.

Workload

Overall Workload	Level 6
Teaching, Learning and Assessment	95 hours
Independent Study	1105 hours

Learning Support

If you have a question or a problem relating to your course, your Course Administrator is there to help you. Course Administrators work closely with academic staff and can make referrals to teaching staff or to specialist professional services as appropriate. They can give you a confirmation of attendance letter, and a transcript. You may also like to contact your Course Rep or the Students' Union Advice team for additional support with course-related questions.

Student Services

If you have any questions about life at University, call into our Student Services Centre at either campus or contact Student Advice directly. This team, consisting of trained officers and advisers are available to support you throughout your time here. They will make sure you have access to and are aware of the support, specialist services, and opportunities our University provides. They also work on a wide range of projects throughout the year all designed to enhance your student experience and ensure you make the most of your time with us. Student Advice are located in the Student Services Centre in the Leslie Silver Building at City Campus and on the ground floor of the Priestley Building at Headingley Campus. The team can also be contacted via email at studentadvice@leedsbeckett.ac.uk, telephone on 0113 812 3000, or by accessing our online chat link, available on the student homepage.

Support and Opportunities

Within MyBeckett you will see two tabs (Support and Opportunities) where you can find online information and resources for yourselves. The Support tab gives you access to details of services available to give you academic and personal support. These include Library Services, the Students' Union, Money advice, Disability advice and support, Wellbeing, International Student Services and Accommodation. There is also an A-Z of Support Services, and access to online appointments/registration.

The Opportunities tab is the place to explore the options you have for jobs, work placements, volunteering, and a wide range of other opportunities. For example, you can find out here how to get help with your CV, prepare for an interview, get a part-time job or voluntary role, take part in an international project, or join societies closer to home.
