Course Overview

The course philosophy reflects the University's strategic plan by putting students at the centre of our activities, delivering a flexible and relevant curriculum with excellent teaching and learning, providing a supportive, inclusive and welcoming environment, and preparing students for employment and lifelong learning. The PG Cert Sport and Exercise Psychology is designed to enable each student to grow personally and professionally during the course. In line with the five aims of the programme, developing students who feel competent and confident in contributing to the beneficence of others through the application of the skills and knowledge they have acquired whilst studying on the programme is key. It is also evident from the aims of the programme that students will experience a course that is research-led and promotes evidence-informed practice as a professional standard to which they should aspire.

This Postgraduate Certificate in Sport and Exercise Psychology at Leeds Beckett University includes three compulsory modules: Contemporary Issues in Sport Psychology, Psychosocial Development in Sport and Exercise, and Psychology of Exercise and Health . The philosophy of the course is to focus the student in the study of relevant sport and exercise psychology modules, which are academically-challenging and underpinned by appropriate research evidence. The course aims to foster life-long learning and develop individuals' ability to understand and critically evaluate psychological principles and knowledge in an ethical way.

Upon completion of the PG Cert, there are opportunities to extend to a Diploma/Masters qualification following further study.

Aims

The broad aim of the programme is to provide students with the opportunity to develop professional and ethical competencies in the research and application of psychology within sport and exercise contexts. This broad aim is explicated more fully in the specific aims set out below. The course is designed to:

- Develop a comprehensive understanding of the psychological principles related to sport and exercise contexts and their application to professional practice.
- Provide an opportunity to critically evaluate and apply a broad range of theories, methodologies and research findings in sport and exercise psychology.
- Develop a comprehensive and practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in sport and exercise psychology.
- Develop the practical ability to identify and employ appropriate/established research techniques in the creation and interpretation of knowledge in sport and exercise psychology.
- Develop professional competencies linked to the pursuit of a career as a Chartered Sport and Exercise Psychologist.

This programme of postgraduate study will provide students with training of high academic quality and applicable to the role of a Chartered Sport and Exercise Psychologist.

Course Learning Outcomes

At the end of the course, students will be able to:

1	Demonstrate a systematic understanding of knowledge and a critical awareness of current problems and new insights in the field of sport and exercise psychology.
2	Critically analyse and evaluate a broad range of theories, methodologies and research findings as applied to contemporary issues in sport and exercise psychology.
3	Utilising a range of media, exhibit a comprehensive knowledge and application of appropriate techniques and methodologies deemed relevant to research in sport and exercise psychology.
4	Demonstrate self-direction, self-awareness and evidence-informed approaches to solving problems, planning tasks and implementing strategies at a professional level.

Teaching and Learning Activities

Summary

The learning and teaching on the PG Cert Sport and Exercise Psychology degree places the student at the centre of the experience by fostering an inclusive, supportive and challenging environment. Through a curriculum which is informed by research and professional practice students will develop the required skills, knowledge and experience. The course will focus on developing sound knowledge of Sport and Exercise Psychology with ample opportunities to apply their knowledge whilst enhancing learning through problem solving approaches. The learning approaches will develop students independent learning capability and critical thinking skills as well as prepare them for employment.

Learning and Teaching Approaches

The learning and teaching on the PG Cert Sport and Exercise Psychology course places the student at the centre of the experience by fostering an inclusive, supportive and challenging environment. Through a curriculum which is informed by research and professional practice, students will develop the required skills, knowledge and experience necessary to achieve Stage 1 of the BPS curriculum. The course will focus on developing sound knowledge of Sport and Exercise Psychology with ample opportunities to apply their learning whilst enhancing learning through problem-solving approaches. The learning approaches will develop students' independent learning capability and critical-thinking skills, as well as prepare them for employment.

Learning and teaching approaches will be continually improved using feedback from mid- and end-of-module evaluations, peer review, focus groups, enhancement and development meetings, and module development days. This will ensure that the students' learning experience is continually enhanced by supporting the professional development needs of the academic members of staff who will facilitate the learning experience.

Students will be engaged through a variety of teaching and learning approaches whilst studying the PG Cert Sport and Exercise Psychology course. Challenging and authentic tasks will be used to stretch the students' capabilities in real-world learning and assessment, resulting in a deeper approach to learning.

The following learning and teaching strategies will be used across the modules;

- Students will undertake advance preparatory work in order to contribute to and inform interactive learning environments.
- Students will learn from and facilitate the learning of others through engagement in peer review processes.
- Students will participate in tutorials where they will work in small groups to engage with learning activities.
- Students will organise and conduct research processes in order to facilitate appropriate data collection, analysis and interpretation.
- Students will work independently to research the relevant literature using a wide range of sources (e.g., electronic databases and search engines).
- Students will complete directed activities/ formative assessments which will inform the content of scheduled sessions, providing opportunities for feedback.

The blend of learning approaches will involve a combination of face-to-face facilitated learning, online learning and self-study which will differ by module and across levels. Modules (20-credits) are delivered over a 12-week semester, with students expected to attend on campus each week, at least a 1-hour large group session and at least a 2-hour smaller group seminar/practical session. Recorded lectures and directed activity will be provided around these study hours. Each module will therefore provide 36 hours of taught content, with students expected to dedicate at least 164 hours of independent study across each semester for each module.

Your Modules

This information is correct for students progressing through the programme within standard timescales. Option modules listed are indicative of a typical year. There may be some variance in the availability of option modules. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes. Details of module delivery will be provided in your timetable.

Level 7			
Semester 1	Core (Y)	Semester 2	Core (Y)
Contemporary Issues in Sport Psychology	Y	Psychology of Exercise and Health	Y
		Psychosocial Development in Sport and Exercise	Y

The part-time study pattern outlined above reflects a recommended course study structure. However, it is recognised that for some students undertaking part-time study more flexibility will be needed in terms of number of modules completed each year as well as the order of modules studied.

Assessment Balance and Scheduled Learning and Teaching Activities

The assessment balance and overall workload associated with this course are calculated from core modules studied. They have been reviewed and confirmed as representative by the Course Director.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, any embedded placement activities and independent study. Modules may have more than one component of assessment.

Assessment

On this course students will be assessed predominantly by coursework with some practical assessments.

Workload

Overall Workload	
Teaching, Learning and Assessment	98 hours
Independent Study	502 hours
Placement	-

Learning Support

If you have a question or a problem relating to your course, your Course Administrator is there to help you. Course Administrators work closely with academic staff and can make referrals to teaching staff or to specialist professional services as appropriate. They can give you a confirmation of attendance letter, and a transcript. You may also like to contact your Course Rep or the Students' Union Advice team for additional support with course-related questions.

Student Services

If you have any questions about life at University, call into our Student Services Centre at either campus or contact Student Advice directly. This team, consisting of trained officers and advisers are available to support you throughout your time here. They will make sure you have access to and are aware of the support, specialist services, and opportunities our University provides. They also work on a wide range of projects throughout the year all designed to enhance your student experience and ensure you make the most of your

time with us. Student Advice are located in the Student Services Centre in the Leslie Silver Building at City Campus and on the ground floor of the Priestley Building at Headingley Campus. The team can also be contacted via email at studentadvice@leedsbeckett.ac.uk, telephone on 0113 812 3000, or by accessing our online chat link, available on the student homepage.

Support and opportunities

Within MyBeckett you will see two tabs (Support and Opportunities) where you can find online information and resources for yourselves. The Support tab gives you access to details of services available to give you academic and personal support. These include Library Services, the Students' Union, Money advice, Disability advice and support, Wellbeing, International Student Services and Accommodation. There is also an A-Z of Support Services, and access to online appointments/registration.

The Opportunities tab is the place to explore the options you have for jobs, work placements, volunteering, and a wide range of other opportunities. For example, you can find out here how to get help with your CV, prepare for an interview, get a part-time job or voluntary role, take part in an international project, or join societies closer to home.
