Policies, Standards and Regulations

<https://www.leedsbeckett.ac.uk/our-university/public-information/academic-regulations/>

Standard regulations apply; however, this course has specific regulations from which it is exempt:

- Regulation 4.3.12 Modules Which Must Be Passed

To study the optional module **Level 5 Performance Management for Decision Making**, students must first have passed **Level 4 Management Accounting and Data Analysis** with a mark of 40 or more.

To study the optional module **Level 5 Financial Reporting**, students must first have passed **Level 4 Financial Accounting** with a mark of 40 or more.

Level 5 Performance Management for Decision Making and **Level 5 Financial Reporting** are only optional on BAH Business Accounting with Finance but should a student progress from Level 4 to Level 5 carrying a mark of 39 or less in either of the specified Level 4 modules it would limit the number of optional modules available to them at Level 5.

Professional Accreditation or Recognition Associated with the Course

Professional body

Association of Chartered Certified Accountants (ACCA)

Chartered Institute of Management Accountants (CIMA)

Accreditation/ Recognition Summary

Association of Chartered Certified Accountants (ACCA)

Successful completion of this programme provides conditional exemptions from all Foundations in Accountancy papers as well as Business and Technology, Management Accounting, Financial Accounting and Corporate and Business Law, and conditional exemptions on Audit and Assurance and Performance Management. You must supply documentary evidence to ACCA to convert conditional exemptions into actual exemptions following graduation. A pass mark of 40% is required for some modules.

*Please note we are currently in the process of renewing our exemption accreditation with the ACCA and the outcome of the accreditation process will affect 2025 entrants to the course. The exemption information provided above is for the current programme and is indicative of the level of accreditation we anticipate following renewal.

Chartered Institute of Management Accountants (CIMA)

Successful completion of this programme provides conditional exemption from CIMA examinations BA1 – BA4, E1, P1, F1 and Operational Case Study exam. You must register with CIMA and supply documentary evidence to verify your eligibility for exemption following graduation. A pass mark of 40% is required for some modules.

Placement Information

Summary

The course contains a placement year.

Placements are recognised and valued by employers and enhance your employability and preparedness for life after graduation.

Placement Delivery

Our Placements Teams will work with students to identify an appropriate opportunity either in the UK or overseas. Please contact Placement Team representatives at either City Site or Headingley for further information. Please note that the costs associated with work placements are not funded by the university (e.g. travel/ accommodation).

Location

Students may be placed with various companies in the Leeds region, but placements can be undertaken nationally or internationally.

Approval

Whilst students source their own placements, they will need to meet requirements which will be outlined before module enrolment.

Timetable

Timetables for Semester 1 will be made available to students during induction week via:

- i) The Student Portal (MyBeckett)
- ii) The Leeds Beckett app

Any difficulties relating to timetabled sessions may be discussed with your Course Administrator.

Key Contacts

Your course director Lois Hargreaves

Your course administrator Janine Herbert-Niles (AccountingAdmin@leedsbeckett.ac.uk)

Course Overview

Aims

The overall aim of the course is derived from the QAA Accounting subject benchmarks and is:

To enable students to make an effective contribution to the financial management of a wide range of business organisations and produce enterprising, highly employable graduates who are ready to work in a variety of settings, co-ordinating teams, managing projects in an ethical environment, and delivering business strategies

Course learning outcomes

At the end of the course, students will be able to:

| | |
|---|--|
| 1 | Construct and analyse financial statements and financial information using a range of techniques and appropriate e-tools in order to critically appraise their value in decision making |
| 2 | Critically appraise current developments in accounting and finance including evaluating contemporary theories and empirical evidence in a wide range of business situations |
| 3 | Recognise the contribution of accounting and finance to a diverse range of enterprises and society as a whole and be capable of describing and commenting on accounting and finance research using appropriate data and methodologies to solve real world problems |
| 4 | Engage in the workplace as an ethical professional and acquire personal competencies including self-confidence, resilience, adaptability and professionally relevant skills appropriate to pursuit of employment or further study |
| 5 | Establish strong business acumen skills including accounting, marketing, digital technologies, and sustainability to become a confident high-level, financially literate graduate |

| | |
|---|--|
| 6 | Demonstrate the capability to navigate uncertainty and complexity and to explore solutions in a range of business challenges taking into consideration social and environmental responsibilities |
|---|--|

Teaching and Learning Activities

Summary

The delivery of the course is based on a standard model of lectures (typically 2 hours) followed by seminar (typically 2 hours) (total = 4 hours). Lectures deliver key knowledge. Seminars facilitate enhancement and application of knowledge through use of case studies, simulations, projects, critical readings, and so on. Seminars also bridge the gap from module content to module assessment, helping students to prepare for and engage with summative assessment tasks. Finally, seminars offer guidance on additional independent learning, for example by extension tasks, guide for further reading and additional resources.

Throughout the course students experience a range of learning and teaching activities e.g. lectures, seminars, supervised computer lab workshops, supported by on-line resources. Seminar preparation is also supported by the use of VLE tools e.g. document and web links will direct students to reading materials and additional activities in a range of modules. Students are able to self-check their understanding by completing online quizzes. Additional module support is provided by tutors in their weekly consultation drop-in sessions.

Students are guided and encouraged to develop independent study skills. Students are encouraged to value the contributions of their peers, for example in the preparation of group presentations. Students will also participate in activities which enable synthesizing, applying, and reflecting on the knowledge and skills developed throughout the award.

Your modules

This information is correct for students progressing through the programme within standard timescales. Option modules listed are indicative of a typical year. There may be some variance in the availability of option modules. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes. Details of module delivery will be provided in your timetable.

Course Structure (Full time)

| Dissertation | 40 | Y6 YL |
| Work Placement | 20 | Y6 S2 |
| <i>Number of credits of option modules a student should choose</i> | 40 | |

Assessment and Scheduled Learning and Teaching Activities

The assessment balance and overall workload associated with this course are calculated from core modules and typical option module choices undertaken by students on the course. They have been reviewed and confirmed as representative by the Course Director, but applicants should note that the specific option choices students make may influence both assessment and workload balance.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, any embedded placement activities and independent study. Modules may have more than one component of assessment.

Assessment

Level 4 is assessed by a broadly even mix of examinations and coursework, with some practical assessments.

Level 5 is assessed by a broadly even mix of examinations and coursework, with some practical assessments.

Level 5 placement is assessed by coursework (if a full placement year is chosen).

Level 6 is assessed predominantly by coursework, with some examinations and practical assessments.

Workload

The number of hours of workload generally equates to 1200 per level for an honours degree, corresponding to the national standard of 10 notional hours of learning for each UK HE credit point.

| Overall Workload | Level 4 | Level 5 | Level 5 Placement (if chosen) | Level 6 |
|-----------------------------------|-------------|-----------|-------------------------------|-----------|
| Teaching, learning and assessment | 306.5 hours | 288 hours | 4 hours | 276 hours |
| Independent study | 893.5 hours | 912 hours | | 924 hours |
| Placement | | | 40 weeks @ 35 hours per week* | |

* Indicative as per Placement Code of Practice
