General information

Programme code

PROMT

Target award

If you complete this course successfully you will be eligible for the award of:

BSc (Hons) Project Management

Delivery mode

- ☒ On campus
☐ Distance learning

Where you will study

The majority of teaching will be at City campus but on occasion may be at Headingley campus.

Professional accreditation or recognition

Professional body

Association for Project Management (APM)

Summary of the accreditation or recognition

Accreditation of the course means that the chartered professional body for Project Management confirms that the course aligns to its education and practice expectations, and that the course develops aspiring project managers that will enhance and develop the profession. Students are encouraged to become student members as they join the course – student membership is free, and brings several benefits: invitations to attend local, regional and national events hosted by the APM, where students can network with professionals and develop their insights into the varied aspects of project management in practice. The APM also engage in research, provide career support and an array of other useful insights into the profession via their website, students will have access to this on joining. In addition, on graduation and beyond, the APM encourage students to become full members. This demonstrates commitment to professional development, which in time may lead to them achieving Chartered status – the highest level of professional recognition

Awarding body

Leeds Beckett University

Regulator

Office for Students

Level of qualification

Level 6 of the Framework for Higher Education Qualifications

Course duration

If you are made an offer of a place on the course, your offer letter will include the start date.

This course can be studied:

3 years full-time

4 years full-time with a placement year

5 years part-time

Part-time study

This course can be studied part-time.

If you study the course part-time, it will usually take twice as long to complete compared with the equivalent full-time course. The modules may be delivered in a different sequence than on the full-time course, but you will study the same modules at each academic level. With the agreement of the course team, you may be able to increase your pace of study to shorten the overall course duration.

As a part-time student, you will not usually have the option of a work placement.

Work placement

If you opt to undertake a full year placement and this is completed successfully you will have the words 'with placement year' added to the award title including for any contained awards that you are eligible for.

Placement Delivery

Students are responsible for obtaining their own placement, with assistance from the University.

Location

Placement location will vary dependant on the opportunity.

Approval

Whilst students source their own placements, they will need to meet requirements which will be outlined before module enrolment.

Entry requirements

Admissions criteria are available on the online prospectus entry for this course.

If you have previous relevant qualifications or experience, you could be exempt from certain parts of your course. Recognition of prior learning (RPL) allows you to start your course at a point appropriate to the learning and skills that you may have developed in a professional, vocational or community setting.

Find out more here: <https://www.leedsbeckett.ac.uk/student-information/course-information/recognition-of-prior-learning>

If you have questions about entry requirements and admissions, contact AdmissionsEnquiries@leedsbeckett.ac.uk

Course fees

Course fees and a breakdown of any additional costs is included on the online prospectus entry for this course.

If you have questions about fees for this course, contact Fees@leedsbeckett.ac.uk

Timetable

You will receive your full timetable for the year during induction week.

What you will study

Course aims

The overall aim of the programme is to enable students to develop project management skills and competencies enabling them to become more creative, analytical problem solvers and acquire an ability to synthesise information to resolve conflicts and therefore fulfil the multidisciplinary role of a Project Manager. One key aspect of the BSc (Hons) Project Management degree programme is its generic nature; this allows students to study the principles and practices which can be applied to any area of business and organisational life. Graduates can be employed in the following areas: Financial services, healthcare, infrastructure, Construction, technology, project consultancy, Engineering, the Public or Voluntary sector.

Teaching and learning activities

In addition to the formal lectures, tutorials, IT laboratory sessions and hands-on project scenarios, classes are delivered to help reinforce the learning process. The feedback and progress assessment, extracurricular seminars, field trips and the involvement of industry experts as guest speakers enrich the learning experience and students' knowledge of current issues in the project management context.

This course will feature in-person learning for any taught sessions.

Course structure

This information is correct for students progressing through the course within standard timescales. If you have to repeat study or take time out during your course, you may be taught alternative modules which meet the overall course learning outcomes.

The option modules listed may vary. Those listed here are likely to be offered in a typical year.

Full Time Delivery

Level 4

Compulsory modules
