The Module

This module will look at current issues and challenges in child welfare practice; and enable students, who are qualified and experienced social workers, to gain advanced understanding of the knowledge, skills and values that underpin effective safeguarding practice with children, young people and their families.

Module content explores a range of contemporary themes including:

- Promoting the rights of children and young people
- Child sexual exploitation
- Family support
- Effective practice to safeguarding children
- Learning from serious case reviews

The module includes 20 credit points at Level 7 (Master's Level.)

Assessment

The assessment for this module is in the form of a written assignment. The title and focus will be developed in negotiation with the module tutor.

Entry Requirements

The module is relevant for qualified and practicing social workers and those in a health and social care profession who are working with children, young people and their families.

Applicants should have a second or above classification undergraduate degree in a relevant discipline, however applications will be welcomed from students with accredited prior learning (APEL). Applicants must have a relevant professional social work qualification, or relevant qualification in a related discipline eg Nursing, Occupational Therapy.
