BSC (HONS) QUANTITY SURVEYING DEGREE APPRENTICESHIP

The BSc (Hons) Quantity Surveying Degree Apprenticeship has been designed to offer flexible and optional pathways to develop skills knowledge and competencies to match business and industry needs.

Apprentices will be in full-time employment whilst studying towards this degree. Modules will be delivered through part-time day release and through work based learning and two-way knowledge transfer between industry and academia. This degree enables apprentices to develop into confident and capable quantity surveyors.

HOW DOES THE DEGREE APPRENTICESHIP WORK?

The course will take up to five years to complete, combining blended learning of on-the-job practical training with integrated academic learning. This blended approach is designed to be adaptable and flexible with a combination of face to face university teaching, online learning research and reflective practice and assessment.

The experiential learning section of the course focuses on the student's workplace and specific areas of project work they are undertaking. This is linked to the RICS Assessment of Professional Competence helping the student work towards the End Point Assessment for the degree apprenticeship. The employer is also expected to engage with this section of study to help the student progress through their training.

COURSE STRUCTURE

Strong career themes run throughout all levels of the course which allows contextualisation to meet the need of your business.

EMPLOYER BENEFITS

- Meet the unique needs of your business – with degree apprentices learning at work, they are able to develop the knowledge and occupational competencies demanded by specific job roles, and meet the unique needs of your business.
- Fill your higher-level skills gaps – higher-level skills are vital to business performance and economic growth. Through degree apprenticeships you can fill your higher-level skills gaps efficiently and effectively by tailoring the learning.
- Develop existing staff – you can develop your existing staff by allowing them to undertake a degree apprenticeship or enabling them to work with a degree apprentice in the workforce, through mentoring opportunities and more.

Level 4	Level 5	Level 6
Law in the Built Environment	Construction Technology	Contemporary Issues on the Built Environment
Introduction to Construction Measurement and Estimating	Construction Communication and Application	Commercial Construction Management
Introduction to Construction Technology	Construction Project Management	Issues in Construction Law
Construction Economics	Measurement	Experiential Learning
Principles of Measurement	Contract Practice	Dissertation (40 credits)
Procurement, Tendering and Valuation	Experiential Learning	

EMPLOYER REQUIREMENTS

- Every apprenticeship must have an Apprenticeship Agreement. This is a contract of service between the apprentice and the employer, confirming the apprenticeship and the standard being undertaken. This will be supplemented by a 'Statement of Commitment' signed by the employer, provider and apprentice, setting out the expectations, roles and responsibility of each party involved in the apprenticeship.
- Apprentices must be employed and paid at least a minimum wage appropriate to their age and job role.
- You will be responsible for recruitment of degree apprenticeships. However, we can work with you to promote your opportunities via our website.
- You will provide paid time off for on campus study.
- Apprentices are required to undergo structured work experience to work towards the attainment of the standards required for the RICS Quantity Surveying and Construction APC pathway.

- Apprentices require a supervisor for the duration of their Apprenticeship who will oversee their development, and co-ordinate with the University.
- Apprentices require an appropriately qualified Counsellor, who must be a chartered member of the RICS, and who will support them through their application and assessment for professional membership.

FUNDING

If the annual pay bill of your organisation exceeds £3m you will pay for your apprenticeship training through your levy account.

If you are a non-levy paying organisation the government will co-fund your apprenticeship training by contributing 90% of the costs and you will pay the remaining 10% of costs.

For further information on apprenticeship funding visit the Governments website www.gov.uk/government/publications/apprenticeship-funding
