Drawing from national and international research with teachers and educators we will:

- Discover how creative pedagogies can transform learning, foster wellbeing, oracy, and empower student agency.
- Participate in hands-on workshops led by teachers, creative practitioners, researchers, and young people, exploring innovative ways to co-design curricula.
- Learn how to embed collective creativity, ethical action (citizenship), and social-emotional skills across subjects.
- Hear about the impacts of embedding creative pedagogies across curricula through longitudinal research.
