Committee Terms of Reference and Membership 2025/26

Purpose

The principal purpose of the Wellbeing Sub-Committee is to support the development of a thriving community which promotes and sustains colleague and student wellbeing. Wellbeing is a multidimensional concept which is defined in the Oxford English Dictionary as a state of being comfortable, happy and healthy. Wellness for individuals is dependent upon a balance between the following elements: physical, emotional, social, spiritual, intellectual and economic.

Our approach encompasses all areas of the University, its people, culture, policies, practice and environment, so that all students and colleagues can experience an individual sense of wellness.

In taking a strategic overview of the range of activity across campus to improve colleague and student wellbeing aligned to the changing needs of colleague and student populations, the subcommittee will make recommendations for enhancements and act as a forum for co-ordination and cooperation between Human Resources, Student Services, the Students' Union, Trade Unions, key services and Schools.

Specific Areas of Responsibility

- a) As a sub-committee of the Health & Safety Consultative Committee, oversee the strategic direction, progress and impact of wellbeing and mental health priorities with respect to their impact upon colleague and student wellbeing.
- b) To receive and review the effectiveness and suitability of the University's integrated programme of wellbeing development, information and activities.
- c) To support development and improvement activity in relation to the University Mental Health Charter.
- d) To enhance the culture and conversation about wellbeing at work and study, covering both a proactive and preventative approach; to promote and make recommendations regarding wellbeing and mental health considerations with respect to our university's policy and practice, to improve levels of wellbeing.

- e) Consider and determine our key measures of wellbeing with respect to the changing needs of our colleague and student populations.
- f) To monitor and review the effectiveness of the University's Safety Health and Wellbeing Policy, in so far as work-related stress is concerned, recommending amendments to the policy via the Health and Safety Consultative Committee. To monitor its compliance through supporting procedures including the review of audit results, reports and observations.
- g) To monitor and assess the impact of colleague wellbeing initiatives through the periodic review of relevant performance indicators which may from time to time include (i) colleague survey results (ii) absence statistics and trends, (iii) any other relevant reports and statistics.
- h) Identify and focus upon the wellbeing needs of specific groups of colleagues and students (e.g. carers, BAME, disabled) and make recommendations for enhancements and improvements as appropriate.
- h) Receive and consider reports from related groups including: The Equality & Diversity Committee and forums, Health & Safety Consultative Committee.
- i) Oversee wellbeing activity that is provided by third parties on behalf of the University, for example the Employee Assistance Programme.
- j) To act as a forum for management to consult with colleagues and their recognised Trade Unions (Safety Representatives) on matters relating to their wellbeing, in accordance with the Safety Committees Regulations 1977 and the Health and Safety (Consultation with Employees) Regulations 1996.
- k) To report upon the status of wellbeing matters to the Health and Safety Consultative Committee and the University Executive Team.
- l) Ensure that equal opportunities and diversity are promoted in relation to all the above.

Reporting

The Sub-Committee will provide a report to each meeting of the Health and Safety Consultative Committee which reports directly to the University Executive Team.
