

CARNEGIE CENTRE OF EXCELLENCE FOR MENTAL HEALTH IN SCHOOLS

PROFESSIONAL LEARNING APPROVED PROVIDERS

The Carnegie Centre of Excellence for Mental Health in Schools launched in 2017 with a pathway of Professional Learning Programmes including the School Mental Health Award as part of its portfolio and the first PGCert / Masters in Leadership of School Mental Health and Wellbeing.

In order to meet our centre's vision to strengthen the mental health of the next generation by supporting schools to make a positive change at all levels of the UK's education system we have developed an approved provider competency framework to accredit mental health and wellbeing programmes, interventions and consultancy to provide an integrated approach to support all educational settings.

Our approved endorsement list will be made up of individuals, organisations, charities or schools who will be accredited by us and who will have passed rigorous criteria and will have demonstrated that they have the capability and capacity to ensure that their resources are both evidence-based, of high quality and have measurable impact.

The framework will be updated regularly to ensure that it stays current and includes the latest innovative provision available.
