STUDENT PUBLIC HEALTH NURSE- HEALTH VISITOR JOB DESCRIPTION

Post: Training post –
Specialist Community Public Health Nurse- Health Visitor

Grade/Salary: £21,909-£28,462 per annum (pro-rata for part-time)

Location: Course based at Leeds Beckett University
Practice base: Dependent on service provider availability

Terms and hours: 1 year full-time (37.5 hours per week)

2 years part-time (18.75 per week)

Responsible to: Practice Teacher and University Course Leader

Accountable to: Appropriate manager in service provider structure

Job Purpose/Summary:

To undertake the education and training required to achieve NMC registration as a Specialist Community Public Health Nurse and non-medical prescribing V100 in preparation for delivering the challenging and exciting Public Health service of the future.

Main Duties and Responsibilities:

To undertake University based learning as required by the SCPHN programme

To undertake practice based learning to achieve the NMC standards of proficiency for specialist practice and non-medical prescribing V100

To build on existing health care knowledge and experience with a specific focus on the needs of disadvantaged and vulnerable children and families and the recognition of health inequalities

To develop the knowledge and skills required for safe, effective and transformational Public Health Nursing Practice

To demonstrate leadership qualities and build on these throughout the course

To adhere to all regulations, policies and procedures required by the University and Service Provider including:

- Health & Safety
- Infection Control
- Equality & Diversity
- Risk/ Accident and Incident reporting
- Safeguarding/Child protection
- Confidentiality & Information Governance
- Human Resource policies and procedures e.g. sickness/absence; bullying and harassment; grievance and disciplinary
- Attendance requirements

and any other policies and procedures that are in place.

Under the supervision of the practice teacher and Course leader, role activities will include:

- Working in partnership with key stakeholders and agencies across the public, private and third sector to promote and protect the health and well-being of individuals, families and communities
- Undertaking surveillance and assessment of the population's health and wellbeing using public health intelligence within the scope of the service level agreement
- Working with individuals (particularly children and young people), families and communities to assess and identify their health and health related needs
- Leading and delivering services in relation to the early years six high impact areas
- Supporting and empowering individuals, families and communities to take appropriate action to influence health care
- Working with multidisciplinary and multiagency team members to ensure delivery of health care plans and programmes
- Delivering evidence based care to individuals, families and communities in a variety of settings e.g. home environments, clinics, practice surgeries, children's centres
- Reviewing child growth and development and referring appropriately to other services
- Providing screening, immunisation advice and health and development reviews in line with the Healthy Child Programme
- Providing healthy living education and support activities e.g. lifestyle choices, care and safety of drugs, care and safety of equipment, accident prevention, parenting skills
- Referring service users as appropriate to other professionals and services
- Continuously evaluating and reviewing health care plans and programmes in partnership with service users and other stakeholders

Effective management of your personal and Public Health practice should also be undertaken by:

- Providing leadership and encouraging innovation in your area of responsibility
- Engaging with and communicating effectively with service users
- Communicating effectively with a wide range of people across a wide range of service sectors i.e. police and local authorities, private and third sector providers
- Acting (under supervision) within the limits of your competence and authority
- Managing your own time in order to ensure equitable delivery of health care plans and programmes
- Ensuring your own actions support the equality, diversity, rights and responsibilities of individuals along with their care, protection and well-being
- Maintaining health, safety and security practices within a health setting
- Taking responsibility for the continuing professional development of yourself and others
- Allocating and delegating activities to ensure the best use of team member skills and competences
- Keeping accurate records through written and electronic means whilst maintaining confidentiality in health care
- Participating in audit and research as required
- Participating in staff meetings, case conferences and any other meetings as required
