Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

14.3.6b of regulations

Yes

In broad terms the marking on the programme is appropriate, with clear deliniation between grading bands

see 14.3.6c of regulations

Yes

Professional Body Requirements

Yes

Issues/point for clarity during the year

A6) Did you raise any issues/point for clarity throughout the year? (required)

Yes

A6a) Please expand below how they were/were not addressed: (required)

Provided some feedback on assessments and exams. These were not issues or major significance, but were items for examiners to consider

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

Some of the assignment briefs are very well developed, they are relevant and timely and provide a good level of detail. This will encourage student engagement.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

The students achieving higher grades have produced very good quality work with a good standard of communcation and presentation along with the demonsration of in depth comprehension of the subject matter. Those at the lower end would appear to struggle with structuring their work and communicating in a clear manner. Referencing in places can be poor. This is not unusual at MSc level were sometimes students who completed an undergraduate in the recent past produce a similar level of work, not accounting for the additional expectations at masters level. I would encourage the team to remind students of the importance of correct referencing and structuing their work.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

7

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

I believe the written communications of some of the students would need to improve in order for them to take up a managerial role. However, those who achieved higher grades are well positioned. Some sessions on professional communication, presentation, academic and professional writting may be of benefit.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)

N/A

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

I wish to thank the academic and administrative team for their engagement and responses to me during the year. The programme is broadly of a good quality with some very strong students. The academic team have demonstrated thoughtful consideration of the students and their results during the exam/module boards.

Examples were provided in a timely manner to me, allowing me to review the work. The quality of the work is generally satisfactory and compares well to other similar programmes in the UK. As in previous years the opportunity to meet some students would be welcome, although I appreciate the logistics of this can be challenging.
