Main report

In this section you are asked to describe more fully how the University has or has not maintained threshold academic standards and the quality of the student experience in relation to the course(s) for which you are the external examiner, using as a reference the framework for higher education qualifications and applicable Subject Benchmark Statements / Qualification Characteristic Statements.

Please complete all sections of the form fully and where not applicable please state N/A. Where applicable please also complete the sections for any collaborative provision sampled.

If you are an external examiner for any of the University's Pearson Licensed Centre Programmes (HND/HNC level) provision, please also complete the section on page 9 sections l, m and n entitled "for External Examiners Associated with Pearson Licensed Centre Programmes."

Professional Body Requirements			
"In my view, the professional body requirements for this course have been met. <i>*Not applicable if the course is not a professional body course please indicate here.</i>	Yes	No	N/A *
	X		
<i>If your answer is 'no', please provide a brief statement (bullet points) of the respect(s) in which they fall short.</i>			

(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).
The Board was conducted in a professional manner and discussed student performance in a fair and equitable manner. Any issues in relation to marks were dealt with promptly by the academic admin support staff.

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)
There was some improvement in consistency of assignment briefs particular as it relates to the marking criteria.

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.
On analysis the student performance is comparable to that of other Universities. As in my previous reports it is good to see, that staff applied a full range of marks to the assessments.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.
As stated in my report last year the law modules and the measurement modules provide the students with sound and appropriate knowledge to enter the workplace and should be recognised as strengths of

the programme. Once again the dissertations viewed lacked depth and appropriate data analysis.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

The assessment briefs provided to students were inconsistent in the level of detail provided to the students and again I would urge the programme team to develop standard headings for their assessments briefs. It is important that the students are provided with consistent information in relation to marking and grading criteria, submission requirements, formatting, referencing etc.

There was little annotation to be found on exam scripts and as such it was difficult to assess how marks were awarded.

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment.

The curriculum and teaching on the programme reflect that currently required by industry. The programme however needs to move forward in terms of its use of technology particularly as it pertains to measurement , this should be supported.

(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)

I had the opportunity to consider the following modules:

Measurement Level 5

Contemporary Economic Modelling Level 6

Issues in Construction Law Level 6

Dissertation Level 6

In all modules the module content reflected the learning outcomes and provided the students with the opportunity in the assessment to demonstrate that they have successfully achieved the intended outcomes. I have had the opportunity to meet with the staff and to discuss each of these in detail. I would however like to meet up with students as requested previously.

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

I was not made aware of this hence I am unable to comment.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

I am happy with the academic regulatory framework and I have no comments to make

(k) Collaborative Provision: please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).

		Yes	No	N/A
a.	(i) Did you receive a sufficient number of scripts from both home and (if appropriate) collaborative partner students?	x		
	(ii) If you did not receive all the scripts, was the method of selection satisfactory?			
<p>Recommended sample sizes at Leeds Beckett University are as follows:</p> <p>a) Samples should be determined by a square root of cohort size, no smaller than 6, no larger than 15. However it should be borne in mind that not all work is assessed in a way that makes a square root sample possible and allowance should be made. For example in subjects such as the performing arts where there may be a requirement for an external to come and view a performance instead, or to visit the exhibition of art work.</p> <p>b) Samples to include all classification categories, and it is helpful to concentrate around the boundaries to include some fails.</p> <p>c) Samples to consist of internally moderated work, clearly evidencing the moderation process.</p>
