Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University's responses to examiners' reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

It has been a very edifying experience to work with the course team and see the progress of their learners again in the 22-23 year. It has been particularly apparent that an ongoing impact of Covid and the cost of living crisis has been challenging for the cohort but this has also created opportunities for students to meaningfully reflect upon the consequences of this for themselves, and other learners, and the support and encouragement of the course team in facilitating this has been very engaging to observe.

I had the opportunity to meet with a selection of third year students in March 2023 and their feedback on their experience and the support from the course team was overwhelmingly positive, and a real testament to the professionalism and inclusive ethos of the staff. The students particularly commented upon excellent support for their Dissertations, the responsiveness and caring nature of staff, and the value of feedback from assignments. The choice supplied in many modules - to allow students to focus upon specific areas of interest - was appreciated by students and I have seen in samples of work how this has enabled in-depth analysis and the development of specialist areas of interest.

Areas students identified for improvement were generally outside of the responsibility of the course team e.g. timetabling, quality of rooms for teaching, and some difficulties with technology.

The modules I reviewed all showcased a wide range of knowledge and understanding from students across a carefully constructed programme. Those that encourage intentional reflection and forward-thinking around careers and professional practice are clearly of superb value to those learners who harness the opportunity supplied to them for such personal development.

I have had the opportunity for regular contact with the course team, and we have engaged in some discussions about the common challenges facing our learners, including AI and the impact of this upon students' approaches to study and critical thinking.

Many thanks to every member of the course team and wider staff within the institution who have facilitated my role and supported their learners.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Strengths I observed across modules related to principles and concepts of inclusion, and intersectionality within the education system. Strong pieces of work exhibited extensive engagement with literature (often seminal, classic texts that are not easy to access) and confident self-reflection.

Weaker work was characterised by a surface level approach and failure to engage with core texts and ideas from a module. On the whole, all weaker work also exhibited poor academic skills e.g. lack of criticality towards texts and ideas, difficulty in communicating ideas, and lack of use of academic conventions/ writing styles.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study?
(required)

0= not at all, 10= fully

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision?
(required)

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).

C5) The moderation process is rigorous and there is consistency in marking standards. (required)
