Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

The creativity promoted through the module assessment is a strength of the programme with students able to engage creatively across components of portfolios, presentations and also reflective feedforward tasks. The assessments tasks are linked excellently to professional practice in working with children and young people, supporting the preparation for students/graduates in developing their knowledge, understanding and application of the professional skills required for employment at the end of their studies. The feedback offered by the module tutor is excellent, providing students with clear and supportive guidance outlining students strengths and areas for development in a personalised and accessible manner.

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Students displayed an outstanding level of reading and research to inform the main arguments and ideas with students presenting comprehensive critical appraisal of contemporary issues. Students demonstrated an excellent grasp and understanding of conceptual material and excellent academic application to professional contexts. Individual pieces of work are a clear indication of engagement in the classroom discussions and reflection to professional practice. A high level of critical reflection supported by a wide range of sources of policy, legislation and theoretical material.

Students at the lower end the students often presented a descriptive overview of theories and at times failed to support statements through research and solely relied on personal opinion or reflections from professional practice in attempting to present ideas. It is clear through examining the sample and the module statistical data that the module tutors are experiencing differing levels of engagement from students, which is reflected in the quality of their assessment submission. There is also a concerning level of non-submissions for the module will also no doubt continue be a source of reflection for the programme team.This in particular is evident in creative assessment tasks is a conundrum as the creativity promoted in the module assessment is a strength.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)
