Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University's responses to examiners' reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

If any boxes are ticked "No" the Dean of School or nominee will be alerted and will oversee the response from the Course Director.

[\[HK1\]](#) Added Reference to correct section of Regulations in here.

14.3.6b of regulations

Yes

A2b) Please provide any further comment on the comparability of any associated collaborative provision:

Assessment tasks allow students to achieve standards which are comparable to those in other HEIs where I have either taught, or been an external examiner.

see 14.3.6c of regulations

N/A

Issues/point for clarity during the year

A6) Did you raise any issues/point for clarity throughout the year? (required)

No

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

In some modules, separate development points are given in the overall feedback. I think this is a helpful practice for students, and can usefully feed forward to subsequent work.

In some modules, good use is made of the rubric around assessment grade criteria. This highlighting helps students understand clearly the strengths in their work, and the ways in which grading decisions have been reached.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Undertaking PT master's study as a working professional poses a big challenge, and students are to be commended on completing course requirements. As is usual in such cohorts, a range of competence is evident. Some students achieve deeper levels of critical engagement with the literature, and with their own reflective practice. However, those who do not achieve the higher grades still demonstrate a valuable professional learning experience, which should continue to impact on their practice.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

5

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

It is hard to comment from the sample I have seen. In my experience, however, while this type of programme is not explicitly designed to enhance career progression, the students often gain confidence and competencies which will assist them in applications for progression.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)

N/A

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).
