Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

Assessment feedback effectively balances being constructive, clearly, and specifically identifying areas of strength and areas for development with being supportive and encouraging. This is for all students, for those achieving higher marks as well as for those achieving lower marks. It is evident that the tutors know the students’ individual journeys on the course and are active in offering ways to support students to fulfil their potential; signposting students to support for study skills and offering one to one tutorials to discuss their work and areas to develop. This demonstrates a consistently supportive, caring and committed approach from the staff.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

The marks achieved by the students range across the grade bands. Students gaining higher marks demonstrate deeper knowledge, understanding and insight, engagement with a wide range of academic literature and a high standard of academic writing and presentation skills. Students achieving lower marks are still working on developing their academic writing, engagement with academic literature and referencing skills. It is evident that progress has been made where students have engaged with feedback and accessed study skills support.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

9

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

The experiential learning opportunities on the course prepare the students well for future employment in related childhood services. A 9 has been given only because it is challenging to fully prepare students for managerial or professional employment or further study.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)

No

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

B7 - answered no because I have not been required to contribute to a review of the course or proposed changes. Having been kept informed about the course, should this have been required, opportunities for me to comment would have been made.

Final Comments

Are there any other final comments you would like to make in relation to your role as External Examiner?

As a new External Examiner, I have found the experience interesting and valuable. It has enabled me to gain insight into the delivery of the programme of study Childhood Development & Playwork, an important degree for preparing students for future employment within the childhood sector and especially within playwork. The modules that I have looked at have been engaging, meaningful, exploring contemporary issues in childhood, play and playwork and are highly relevant for students’ practice and employability. Experiential learning is a significant strand of the degree offering students opportunities to develop key skills, knowledge and engagement with different agencies. Specialist input from the staff team has enabled developing the range of experiential learning opportunities in varied childhood settings and services which has enhanced the student experience.

End of Tenure Report

If you are at the end of your tenure as External Examiner, please provide an overview of the development of the programme during your term of office. This overview will be of value to the University, the programme team and to the incoming External Examiner.

Please include commentary regarding academic standards and student achievement across cohorts during the examiner's period of appointment:

This Section is only to be completed by external examiners at the end of their tenure.
