Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Section A

External Examiner’s Report Summary

Please indicate below whether you agree with the statements about the threshold standards of Leeds Beckett University’s awards, student achievement and the conduct of the University’s assessment processes, using as a reference the [Framework for Higher Education Qualifications](#) applicable Subject Benchmark Statements / Qualification Characteristic Statements and [Leeds Beckett University regulations](#)

If any boxes are ticked “No” the Dean of School or nominee will be alerted and will oversee the response from the Course Director.

[HK1]Added Reference to correct section of Regulations in here.

Standards set

A1) “Threshold academic standards set for the modules/courses meet the applicable national academic standards.” (required)

See 14.3.6a of regulations

Yes

Student achievement

A2) “Students who have been awarded qualifications have had the opportunity to achieve standards beyond the threshold level that are reasonably comparable with those achieved in course(s) or subjects in other UK institutions with which I am familiar.” (required)

14.3.6b of regulations

Yes

A2b) Please provide any further comment on the comparability of any associated collaborative provision:

The way the assessments are setup allows very strong students to differentiate their abilities and gain higher marks. At the lower end, the assessments allow stduents to achieve a pass mark if they have made reasonable effort. The inclusion of the must-pass modules as a requirement of the PSRB maybe having a slight impact on the progression and possibly attainment - but it is a bit early to fully see if this is significant.

Conduct of processes

A3) "Processes for assessment and the determination of awards are reliable, rigorous and conducted in line with the regulations at all times." (required)

see 14.3.6c of regulations

Yes

Professional Body Requirements

A4) Do the learning outcomes and assessment of the courses allow successful students to meet the Professional Statutory and Regulatory Bodies criteria at the appropriate level'. (required)

see 14.3.6a of regulations

Yes

Actions from last year’s report

A5) In respect of your feedback, has any required action from last year’s report been satisfactorily responded to? (required)

Yes

Issues/point for clarity during the year

A6) Did you raise any issues/point for clarity throughout the year? (required)

Yes

A6a) Please expand below how they were/were not addressed: (required)

Feedback on exam preparation and model/example answers has improved significantly based on what i have seen in the past two years.

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

It should be noted that the facilitation and management of the academic boards shows very good practice - the teaching and support teams make the whole process very professional and even with a lot of students the background for individual is available when needed - bravo!!
The implementation of the PSRB regulations into teaching is very good - the staff ensure that they are also bridging some of the connected topics via a spiral curriculum.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Based on the examples I have seen - the students knowledge and recall capacity is very good. When students have coursework based assessments they are performing higher than in examinations - not unusual in modern HE. However, I would say that the problem-solving capacity/ability of the students still need to improve - this is certainly not a unique to Leeds problem (far from it) - but I think work needs to be done on preparing students for more problem-based assessments and the approaches needed for tackling them

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

8

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

As stated above the lateral thinking and problem-solving skills need to be bolstered in the taught modules. I would say that this is certainly the case in levels 4 (expected) and to some extent level 5. But by level 6 (and 7) I would expect to see more PBL-based assessment showing a higher overall average attainment.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision?
(required)

Yes

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

Section C

Yes

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

Yes

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).

Yes
