Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Final Comments

Are there any other final comments you would like to make in relation to your role as External Examiner?

There have been several commendable elements observed in the course. The innovative pedagogical approaches and strong clinical involvement of the course should make it an attractive option for potential PGR students. The alignment with sector standards ensures that students are not only acquiring theoretical knowledge but are also well-prepared for the demands of the professional/clinical landscape. The emphasis on ongoing assessment for learning shows a commitment to continuous improvement and student success.

End of Tenure Report

If you are at the end of your tenure as External Examiner, please provide an overview of the development of the programme during your term of office. This overview will be of value to the University, the programme team and to the incoming External Examiner.

Please include commentary regarding academic standards and student achievement across cohorts during the examiner's period of appointment:

This Section is only to be completed by external examiners at the end of their tenure.

The academic standards and student achievement throughout have been commendable. The rigorous assessment methods employed have effectively gauged student understanding, and from what I have observed, the improvement in student achievement over is a testament to the effectiveness of the teaching and assessment strategies implemented. Particularly so given the extensive COVID interruptions.
