Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University's responses to examiners' reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

It is a strength of the course that range of assessment styles are offered across modules giving student the opportunity to demonstrate and develop a range of skills necessary in practice. I have had several communications with members of the team over the course of the year about potential amendments or revisions to assessment demonstrating a pursuit of excellence. In these cases the views of students were sought and taken on board. The course is also clearly aligned to public health in practice with clear examples and scenarios drawn from the profession. This real world context is important in rooting students in practice.

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

The higher scoring students demonstrated an extremely high grasp of the principles and practice of public health and health promotion and were able to craft coherent and analytical arguments in their assessments. They demonstrated wide reading and an engagement with the task showing close attention to the criteria. Weaker students did not take advantage of the opportunities and feedback given by lecturers in order to develop their academic skills. Weaker students lack critical analysis and in some cases did not draw on a sufficiently wide range of sources.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

The support given to me by the Course Director and has been excellent with information on each of the modules provided and excellent communication throughout this year. I have answered no to D5 as I do not recall an online induction to the Leeds Beckett systems. I have also ticked no to D6 as I do not have a 'mentor' and am not quite clear what this is. The Course administrator has also been extremely helpful in ensuring all information has been shared in a timely manner and providing support with IT and Blackboard.
