Note. I was unable to attend the board in this occasion, but the support team kept me updated all the way and all the processes seem appropriate		

Areas of good practice
Any particular strengths or distinctive or innovative features in relation to learning, teaching and assessment.

An area of good practice is surely the level of detail offered in the feedback to students. The module team considered especially the importance to provide constructive feedback ahead of potential resubmissions.

Main report

In this section you are asked to describe more fully how the University has or has not maintained threshold academic standards and the quality of the student experience in relation to the course(s) for which you are the external examiner, using as a reference the framework for higher education qualifications and applicable Subject Benchmark Statements / Qualification Characteristic Statements.

Please complete all sections of the form fully and where not applicable please state N/A. Where applicable please also complete the sections for any collaborative provision sampled.

If you are an external examiner for any of the University's Pearson Licensed Centre Programmes (HND/HNC level) provision, please also complete the section on page 9 sections l, m and n entitled "for External Examiners Associated with Pearson Licensed Centre Programmes."

Professional Body Requirements			
"In my view, the professional body requirements for this course have been met. <i>*Not applicable if the course is not a professional body course please indicate here.</i>	Yes	No	N/A *
<i>If your answer is 'no', please provide a brief statement (bullet points) of the respect(s) in which they fall short.</i>			

(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).
I cannot comment on the actual board as I was unable to attend in this occasion. However, the support team kept me updated on all the processes.

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)
I had asked to see the proposals so to be able to comment on students' progression on formative feedback. Unfortunately, this was not possible this year.

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.
The overall performance of students seems comparable to the one in other institutions I am familiar with.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.
The works I reviewed confirm once again that the students are able to link theory and practice. Students still seem to find processes of theorising challenging.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

For this board, I was asked to observe only dissertations. They seem of adequate level overall. The team gave appropriate feedback. I commented on how different institutions have introduced different levels of moderation to ensure consistency across different supervisory teams. This would also support more fairness across different marking teams.

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment.

It will be beneficial to discover more about the university processes to review and refresh the curriculum. I will liaise with the course team to access this information.

(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).

I had limited opportunities to access the MyBeckett VLE.

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)

I was only able to comment on the dissertations. In this assessment, the learning outcomes were clearly laid out and measured with appropriate marking grids. I commented to the school separately on how there might be benefits in harmonizing feedback forms.

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

Next year, I would appreciate to have a clearer presentation on how the supervisory arrangements are structured to guarantee similar experiences for all students in the process.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

(k) Collaborative Provision: please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).

Recommended sample sizes at Leeds Beckett University are as follows:				
<p>a) Samples should be determined by a square root of cohort size, no smaller than 6, no larger than 15. However it should be borne in mind that not all work is assessed in a way that makes a square root sample possible and allowance should be made. For example in subjects such as the performing arts where there may be a requirement for an external to come and view a performance instead, or to visit the exhibition of art work.</p> <p>b) Samples to include all classification categories, and it is helpful to concentrate around the boundaries to include some fails.</p> <p>c) Samples to consist of internally moderated work, clearly evidencing the moderation process.</p>
