(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).
N/A

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)
N/A

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.
I agree that the samples of work that I reviewed demonstrated a level of performance that is comparable to students, at this level, across other institutions.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.
Key strengths of high performing students include a firm understanding of the relevant literature and an ability to critically discuss this literature in the context of their own experiences. Weaker students conversely struggled with this area and tended to write more descriptively with less depth of discussion and integration.

**(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.**

Overall, the marking I observed was consistent and fair with evidence of moderation provided.

**(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment.**

Based on the performance of the work reviewed, I would say that the teaching and resourcing of the programme was appropriate and enabled the students to achieve the set learning objectives.

**(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).**

N/A

**(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)**

The content of the modules based on the assessments I reviewed appears to be well aligned with the relevant professional bodies and needs of the students.

**(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.**

I reviewed student dissertations which enabled students to address an applied research problem through an independent piece of research.
