Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

The teaching team are highly supportive of all students, and this was particularly obvious this year with a wide range of personal circumstances, part time jobs and family commitments that many of the students were studying in tandem with. Students were full of praise for the sensitive and supporting approach and time spent encouraging and assisting them through what is an intense and busy year. Staff should be particularly praised for their never ending supply of enthusiasm for the subject.

Academic Standards

Please advise on the Academic Standards for the Programme:

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Good understanding of many of the practicalities of a design project through the application and use of various tools, such as the Urban Green Factor and BNG. This brings the benefits of keeping projects partially grounded and more relevant to professional practice and creates a good balance between blue sky thinking and the pragmatism required to design in the real world.
Time management and a last minute flurry of working appeared to be present with some students, however this is often a symptom of a busy student / life balance which can be challenging.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

9

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

Visits to practices and even more bite size discussions with practitioners to get a feel for the working environment.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)
