Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

A particularly commendable aspect is the innovative approach to assessment observed in various modules, but specifically in 'Composition for Moving Image.' The portfolio assessment method encourages students to engage in a comprehensive learning process, where they are tasked with creating work that has direct relevance to professional practices in the field of moving image composition.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

This marks my third year as the External Examiner for your MA programmes. I continue to observe that these programmes consistently maintain a high standard across their various components. My review of work from all cohorts has provided a comprehensive perspective on the students' output. Similar to my observations from the previous years, it is clear that the students are thoroughly engaged with both practical skills and theoretical concepts, effectively equipping them for their future professional endeavours in the relevant industries.

I would like to particularly commend the tutors for their insightful and detailed evaluations of student work. Their feedback is noteworthy. The tutors do an excellent job of not only identifying the strengths and areas for improvement in the students' work but also inspiring the students to engage in deeper reflection about their accomplishments and how they can elevate their work further.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

8

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

In addition to continuing the practice of inviting successful graduates to give guest talks, which provides current students with valuable insights and networking opportunities, I recommend the implementation of a mentorship program. This program could pair students with industry professionals or accomplished alumni, offering them personalised guidance and career advice.

Such a mentorship scheme would not only enrich the students' learning experience but also provide them with a direct link to the industry. It would

allow students to gain first-hand knowledge about the professional world, understand industry expectations, and develop key relationships that could be beneficial for their future careers. This initiative, coupled with the insights gained from guest speakers, would significantly enhance the course's ability to prepare students for progression to managerial or professional employment or further study.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)
