External Examiner ID

Name Of External Examiner:

First Name

Last Name

Collaborative Institution:

Date of Main Progression and Award Board Attended:

Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University's responses to examiners' reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Section A

External Examiner's Report Summary

Please indicate below whether you agree with the statements about the threshold standards of Leeds Beckett University's awards, student achievement and the conduct of the University's assessment processes, using as a reference the [Framework for Higher Education Qualifications](#) applicable Subject Benchmark Statements / Qualification Characteristic Statements and [Leeds Beckett University regulations](#)

If any boxes are ticked "No" the Dean of School or nominee will be alerted and will oversee the response from the Course Director.

[\[HK1\]](#) Added Reference to correct section of Regulations in here.

Standards set

A1) "Threshold academic standards set for the modules/courses meet the applicable national academic standards." (required)

See 14.3.6a of regulations

Yes

Student achievement

A2) "Students who have been awarded qualifications have had the opportunity to achieve standards beyond the threshold level that are reasonably comparable with those achieved in course(s) or subjects in other UK institutions with which I am familiar." (required)

14.3.6b of regulations

Yes

A2b) Please provide any further comment on the comparability of any associated collaborative provision:

On reviewing a sufficient range of student work from a diverse range of modules in my view, the threshold academic standards have been met and work has been consistently marked within the appropriate grade boundaries. Assessment statistics in all modules pose not concerns or anomalies and are consistent with other programmes in the UK. The assessment criteria and marking schemes are set at an appropriate level and the generic marking schemes provided in module handbooks have with pre-populated rubric grade boundaries help to provide consistency across the module submissions. The internal marking is fair, there is recorded evidence of internal moderation in all modules I am assessing. The general standard consistency of marking is appropriate with supportive and constructive general commentary in all samples viewed.

Conduct of processes

A3) "Processes for assessment and the determination of awards are reliable, rigorous and conducted in line with the regulations at all times." (required)

see 14.3.6c of regulations

Yes

Professional Body Requirements

A4) Do the learning outcomes and assessment of the courses allow successful students to meet the Professional Statutory and Regulatory Bodies criteria at the appropriate level'. (required)

see 14.3.6a of regulations

N/A

Actions from last year's report

A5) In respect of your feedback, has any required action from last year's report been satisfactorily responded to? (required)

Yes

Issues/point for clarity during the year

A6) Did you raise any issues/point for clarity throughout the year? (required)

Yes

A6a) Please expand below how they were/were not addressed: (required)

I would like to understand the detail of the pre-marking calibration including the marking team application of marking criteria, and post-marking internal moderation processes especially between the different project modes and across the various subject groups in the school/faculty. I would also like to understand the pre, during and post quality assurance processes for the work based and placement learning linked modules.

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

The programme team should be commended for their diverse approach to implementing employability pedagogies throughout the curriculum. Integrating strategies such as enterprise education, work related and career related learning helps to enhance traditional strategies such as work based and placement learning. The use of authentic assessment methods helps to reinforce this teaching and learning approach and helping students understand the professional and industry environment they might encounter in their future careers.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

Student work in the higher-grade boundaries across all the modules offered innovative and well researched solutions demonstrating an appropriate depth of understanding of the key theories, ideas and issues related to the areas of study. Students in the higher grade boundaries were also able to recognise the practical application on theory which reflects the industry and employability focus of the teaching teams.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

9

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

Employability in sport management should focus on a combination of role-specific skills, transversal skills, cognitive skills, specialist knowledge, behaviours, attributes and attitudes that enable individuals to progress towards or enter into employment, stay in work, and progress during their

careers and the programme team already have a wide variety of strategies embedded into the curriculum. The team should continue to integrate a diverse framework of employability pedagogies exploring and refining their approach to work based learning, work related learning, career development learning, professional identity development, enterprise and entrepreneurship education and transversal/lifelong learning strategies across the full range of campus, workplace and digital contexts. If the university is collecting career registration data the programme team should consider students level of career readiness throughout the student journey from level 4 to graduation and the extent to which the teaching and learning and integrated extracurricular strategies at each level can help students with their understanding of the sport and physical activity industry, preparation for professional roles and transition into graduate level roles.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)

Yes

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

I noted that students at the lower grade boundaries have problems with general academic skills and would request further details on how the programme team and or university could providing direct links and signposting to academic skills resources within module handbooks and or blackboard assessment areas..

Please advise on the Assessment Process for the Programme:

C1) The internal assessment / examination procedures are comparable with similar awards in the UK. (required)

Yes

C2) Procedures for the Exam Boards were fairly and rigorously conducted (including procedures governing extenuating circumstances, academic misconduct and borderline performance), and in accordance with the University's Academic Regulations. (required)

Yes

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

Yes

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).

Yes

C5) The moderation process is rigorous and there is consistency in marking standards. (required)

Yes

C6) The range of exam papers / assignments provided for sampling purposes and their appropriateness in terms of subject / level / learning outcomes were appropriate. (required)

Yes

C7) If You have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

I would like to understand the pre-marking calibration approached the module teams undertake.
