Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University's responses to examiners' reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

I would like to commend the course team for developing and producing what I believe is a forward thinking, ambitious and fully applied curriculum that provides opportunities for students to integrate, embed and deepen their learning. The opportunity to develop employability potential and skills through extensive placement hours is excellent.

The module content and associated assessments allow the students to express their knowledge, skills, and values in interesting and creative ways.

An outstanding example of having the opportunity to use technology in the level 5 module Adventure, Play and Risk was where a student produced a video that included a mix of interviews, personal blog footage and reflective talking to camera. (Adventure playgrounds). They were truly able to show their subject content knowledge, but they were also able to capture the culture associated with adventure, play and risk. It was great to see this.

Opportunities for collaboration, through professional conversations in the L6 professional practice in sport coaching module as well as the group presentation in L5 research methods for sport coaching are fine examples where high-level graduate skills are being developed/assessed alongside the subject content knowledge.

The focus on formative feedforward is a strength of the assessment approach. I witnessed a great example of this during level 5 Coaching Pedagogy in Context presentations, and I was really impressed with the tutor's use of questioning which allowed the students to develop their reflective skills and identify their strengths as well as of course their areas for improvement. This of course supports them moving forwards to the second and third assessment tasks. The 'long thin' (across sem1 & 2) nature of this module and the thoughtful structure of content and assessments allowed the opportunity for progression and strong theoretically informed applied coaching.

It was good to see that the students were challenged to produce an extended academic writing piece in the L6 final year project .

Lots of great work worth commending and the above are examples.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

The strengths were in their ability show and apply their theoretical knowledge in a range of coaching contexts and through various modes of assessment types.

Level 5 engagement was an issue and this was noticeable through not only non submissions but in the weaker submissions too.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study?
(required)

0= not at all, 10= fully

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

I think that graduate skills and employability opportunities is embedded throughout the course due to the spiral nature of the curriculum model adopted. This is a strong research informed and theoretically applied course that would prepare students to move onto higher academic awards and professional coaching roles as well as teaching.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision?
(required)

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

Section C

Assessment

Please advise on the Assessment Process for the Programme:

C1) The internal assessment / examination procedures are comparable with similar awards in the UK. (required)

C2) Procedures for the Exam Boards were fairly and rigorously conducted (including procedures governing extenuating circumstances, academic misconduct and borderline performance), and in accordance with the University's Academic Regulations. (required)

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).

C5) The moderation process is rigorous and there is consistency in marking standards. (required)

C6) The range of exam papers / assignments provided for sampling purposes and their appropriateness in terms of subject / level / learning outcomes were appropriate. (required)

C7) If You have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:
