Introduction

External Examiners are required by the terms of their appointment to submit an annual report. The report will be considered in depth during course annual monitoring activity. A record of the University’s responses to examiners’ reports also forms part of the documentation for this activity. It is also used in compiling our annual report on external examining.

Your report will be widely circulated and shared with Students and therefore we ask you not to refer to anyone by name or in a way that allows identification of an individual.

Please complete all sections of the report unless they are not relevant (such as you do not examine Collaborative or Degree Apprenticeship Provision). This report must be **submitted within 28 days of the main Progression and Award Board** and failure to submit within the required timescale may result in termination of your tenure as an external examiner without good reason.

NO EXAMINING FEES WILL BE PAID IF YOU FAIL TO SUBMIT YOUR ANNUAL REPORT.

If any boxes are ticked “No” the Dean of School or nominee will be alerted and will oversee the response from the Course Director.

[HK1]Added Reference to correct section of Regulations in here.

14.3.6b of regulations

Yes

A2b) Please provide any further comment on the comparability of any associated collaborative provision:

A6) Did you raise any issues/point for clarity throughout the year? (required)

No

Areas of good practice/commendation

A7) Please outline any particular strengths or distinctive or innovative features you have observed in relation to learning, teaching and assessment:

A well-balanced suite of assessments that feature practical, presentations and academic writing was also pleasing to see. Theory features in all assessments.

A range of weightings was also good to see.

Section B

Academic Standards

Please advise on the Academic Standards for the Programme:

B1) Do the Courses and its modules continue to be coherent and generally up-to-date and at an appropriate level to enable students to meet the relevant aims and learning outcomes? (required)

Yes

B2) What do you believe were the strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills? (required)

The assortment of grades observed across all evaluated work indicates that the assignments were effectively designed to challenge the students. Notably, the cohort demonstrated a higher caliber of work and a more focused approach to tasks that involved presentations or practical exercises, with minimal extraneous content, in contrast to assignments requiring 'formal' written literature reviews. This pattern suggests that the students may have a stronger inclination towards interactive 'coaching' and hands-on activities rather than research-oriented writing. Such a preference could inform future curriculum development to better align with their interests and strengths.

B3) Are the marking/grading criteria or marking schemes set at the appropriate level of study and have they been consistently applied including internal moderation processes? (required)

Yes

B4) Did students receive adequate and helpful feedback to inform their future learning? (required)

Yes

B5) In your view please indicate how well you feel the course prepares students for progression to managerial or professional employment or further study? (required)

0= not at all, 10= fully

10

B6) Please provide any further comments to indicate how the course could better prepare students for progression to managerial or professional employment or further study (if applicable)

I see no significant issues with the curriculum. There is always room to improve and would expect the lecturers to identify any support they require to improve the delivery of the modules.

B7) Have you had the opportunity to comment on or contribute to a review of the course including any proposed modifications or enhancements to provision? (required)

No

B8) If you have answered no to any of the above or would like to add any further points of clarity, please expand in the box below:

Section C

Yes

C3) The design and structure of the assessment methods used were appropriate; there was comparability within and across modules/awards in terms of level and their effectiveness in measuring the overall learning outcomes. (required)

Yes

C4) There was sufficient rigour in the achievement of learning outcomes in professional placements / work-based learning / work experience (where relevant).

N/A
