If your answer is 'no', please provide a brief statement (bullet points) of the respect(s) in which they fall short.

(a) The operation and conduct of the Progression and Award Board (and/or Module Board meeting you may also have attended).

The preparation and administrative support was excellent and all processes run smoothly, while all aspects that could have been unclear were explained during the Board.

(b) The action, if any was required, taken in response to your report of last year. (This will not be relevant if you are examining for the first time.)

(c) The overall performance of the students, in relation to that of comparable levels of work in other institutions.

The work of the students was accurately marked and the marks and feedback reflected the standard achieved. Work of similar standard would have received a similar grade in my Institution or other Institutions I was External Examiner for.

(d) The strengths and weaknesses of the students in general with respect to knowledge, conceptual grasp or application of skills.

The student performance ranged from some excellent, in-depth analyses and clear application of knowledge to some poorer, very superficial and/or factually incorrect work. It is fair to say that generally students who seemed to apply effort and follow the guidance provided were able to perform better.

(e) The standards of the structure, organisation, design and marking of all examination papers and/or other forms of assessment.

Standards were upheld and adhered to in all modules; particular mention should be made to standardisation of multi-marker modules.

(f) The curriculum, teaching or resourcing of the programme of study as indicated by the performance of the students in the assessment

I found the curriculum appropriate while the research experience of staff provides for a rich learning experience. As a result, a good proportion of students has received higher classification marks.

(g) Comments on the use of My Beckett (Virtual Learning Environment) within the course (if applicable).

NA

(h) Module content, consistency of modules and module assessment across the course and the achievement of learning outcomes. (You may be asked by your School to provide detailed comments on the modules that you examine.)

I was happy with the consistency of the material I was provided, both between and within modules. Similarly, all modules provided and adhered to the Los when marking.

(i) Areas of student/staff engagement in teaching and learning, scholarship, research or professional practice.

Inclusion of staff's research in the provision and assessment was evident and I fully support it.

(j) The University welcomes external examiners' comments on its academic regulatory framework. Such comments may not have a direct bearing on standards set and achieved or the conduct of processes and so it may not be appropriate to include them elsewhere in this report or its summary. Please record any concerns or comments you may have here.

NA

(k) Collaborative Provision: please include here any comments you wish to make on elements of collaborative provision for which you have responsibility (in addition to those you may have indicated previously in this report).
