

GENERATIVE AI IN LEARNING AND TEACHING

The Centre for Learning & Teaching (CLT) is offering bespoke sessions to support Schools and Subject Groups in reflecting on how they can best adapt their courses, assessments, and teaching and learning opportunities in a Generative AI age, and to rethink educational practices for an AI-informed future.

These sessions are designed for whole-School delivery and may be tailored to the specific needs of individual Schools and Subject Groups. The sessions can be combined to suit particular School or Subject Group priorities and can be scheduled over a period of time to scaffold conversations.

CLT offers sessions in:

Assessment	Curriculum	Teaching activities	L&T creation
AI enabled assessment	Learning outcomes of the future	Engaging students with AI	Getting started with AI – rethinking ideas
Valid assessment in an AI enabled world	Rethinking curriculum – AI informed	Engaging delivery	AI for course teams
Stress-testing assessment	What does my discipline look like in AI world	Making my teaching more inclusive	AI + future skills
Rethinking assessment – AI, authentic, achievable, inclusive		Getting started with AI in L&T
