

# YOUR APPLICANT DAY SCHEDULE

## SATURDAY 9 MARCH 2019

### Check In

Thank you for booking onto an Applicant Day. This is a fantastic opportunity to explore your course in more detail and meet your future course-mates. When you arrive on the day, please remember to check in at the [Student Hub](#) at [Headingley Campus](#) where we will give you details about your course sessions and will answer any questions you might have. Our check-in desk is open from 09:30 - please try to arrive around 30 minutes before your first activity.

### Sport & Exercise Science

Session	Start	Finish
<p><b>Welcome Talk &amp; Course Presentation</b></p> <p>This presentation will provide you with a brief overview of your chosen course, including an introduction to the course team, details of the course structure, the exciting new campus facility developments and career prospects. A short sample lecture will also give you an insight into the teaching of one of the key sport and exercise science disciplines and how we deliver lectures in that particular topic.</p>	10:00	10:50
<p><b>Interactive Workshops and Free Time for Lunch, Accommodation and Campus Tours</b></p> <p>During this period, you will have the opportunity to take part in the following two interactive workshops, each 50-minutes in length, as well as enjoy an hour's free time for lunch, or to take part in any of the tours listed over the page.</p> <p>The order in which you take part in these workshops will vary depending on which group you are assigned to on the day.</p> <p><b>Workshop 1 – Physiology</b></p> <p>This interactive session will simulate a laboratory practical with our student volunteers put through their paces in a submaximal exercise test. Supported by our physiology and nutrition lecturers, you will examine acute physiological responses to exercise. You will use a range of cardiovascular, respiratory and metabolic measures to evaluate the body's response to exercise and increasing demand for energy. The session will provide you with a snapshot of how we evaluate the body's integrated response to exercise and demonstrate applications in health and sport performance.</p> <p><b>Workshop 2 – Biomechanics</b></p> <p>This session will provide an interactive simulation of the applied nature of biomechanical principles in the analysis of explosive power. Our biomechanics lecturers will demonstrate some of our state-of-the-art equipment, from force plates and high-speed cameras to the analysis of muscle activity through electromyography, and they will show how you will use hands-on learning to tailor your approach to various sports and populations.</p>	11:00	14:00
<p><b>Open Drop in Session</b></p> <p>We do not want you to leave with any unanswered questions. Please feel free to pop in and share any questions and comments before departing. This opportunity will be facilitated by members of our course team whom you will have met throughout the day.</p>	14:00	14:50

## Campus Tours

Experience a taste of university life as our Student Ambassadors show you around Headingley Campus.

**Times:** Every 20 minutes, from 09:30 to 15:30
