

Whole Systems Approach to Obesity

National Event
18th October 2016

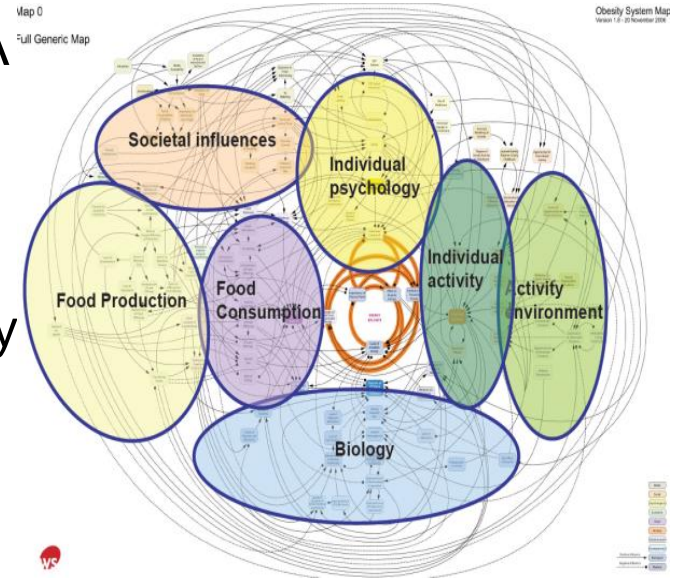

Welcome

Jim McManus Chair

About the Programme

- Partnership approach – PHE, ADPH and LGA
- Realising what Foresight Tackling Obesities report set out, across the local system
- Aim to develop transferable route map of approaches to support LAs across the country
- Co-production with LAs at heart of the programme including Pilot LAs: Durham, Lewisham, Gloucestershire, North Kesteven
- Community of Learning set up to share experience and good practice

Programme aiming to answer:

How can a LA use its levers, leadership, evidence and relationships with stakeholders and communities to create a more effective, sustainable, system-wide approach to tackling obesity?

Purpose of event

- Share where we are, seeking your feedback
- Year 1 of 3 just completed, very much work in progress
- First part of event will:
 - Set the context
 - whole systems working offers a better approach
 - Introduce some of our findings so far
- Second part – workshops addressing key issues colleagues have raised with us through the Programme
